001-999 Philosophy and Objectives

102 Mission Statement

The Seventh-day Adventist Church in North American operates a system of elementary and secondary education that began in 1872. The unique philosophy of Christian education of the Church is based on the Scriptures and the writings of Ellen G. White.

The primary aim of Seventh-day Adventist education is to provide opportunity for students to accept Christ as their Saviour, to allow the Holy Spirit to transform their lives, and to fulfill the commission of preaching the gospel to all the world.

The education programs of church-affiliated schools are predicated on the belief that each student is unique and of inestimable value, and on the importance of the development of the whole person. Students are educated to accept service as a way of life, to be sensitive to the needs of the people in the home and society, and to become active members in the Church.

104 Seventh-day Adventist Education Philosophy

The Seventh-day Adventist Church recognizes God, as the ultimate source of existence and truth. In the beginning, God created in His image a perfect humanity, a perfection later marred by sin. Through Christ and His Spirit, God determined to restore humanity from its lost state. Through the Bible, He has revealed His will to the world, a revelation that supersedes human reason. Through His Church on earth, He seeks the lost for His kingdom.

The basic tenets of the Seventh-day Adventist Church, as well as the inspired writings of Ellen G. White, are directed toward God's restorative plan for fallen humanity. The Church conducts its ministry of education to engender belief in these tenets, within the context of one's personal relationship with Jesus Christ, and to foster a desire to share that relationship with others.

Made in God's image, every human being, although fallen, is endowed with attributes akin to those of the Creator. Therefore, Seventh-day Adventist education seeks to nurture thinkers rather than mere reflectors of other's thoughts; loving service rather than selfish ambition; maximum development of one's potential; and an appreciation for all that is beautiful, true, and good.

An education of this kind imparts far more than academic knowledge. It is a balanced development of the whole person. Its time dimensions span eternity. In Seventh-day Adventist education, homes, schools, and churches cooperate together with divine agencies in preparing learners for citizenship here on this earth and in the New Earth to come.

302 Objectives of Seventh-day Adventist Education (FEA 05 15)

The Seventh-day Adventist Church desires to provide for all its youth an education within the framework of the science of salvation. The fundamentals and common branches of knowledge are to be studied so that proficiency is achieved and a high quality of teaching is maintained.

The Seventh-day Adventist elementary school will assist each child to develop 1) a love and appreciation for the privileges, rights, and responsibilities guaranteed each individual and social group, and 2) a wholesome respect and attitude for each unit of society—home, church, school, and government. The elementary school will offer an organized program to ensure adequate development leading toward total spiritual, physical, mental, and emotional health and a basic core of skills and knowledge for everyday living.

The Seventh-day Adventist secondary school, predicated on the results obtained through the elementary school with character building as an undergirding structure, will endeavor to operate realistically for each student in the upgrading and maintenance of health, in the command of fundamental learning processes, in the teaching of worthy home membership, vocational skills, civic education, worthy use of leisure, and ethical maturity. The secondary school, implementing the church philosophy, will seek for objectives of spiritual dedication, self-realization, social adjustment, civic responsibility, and economic efficiency.

402 The School's Application of Philosophy and Objectives

Each Seventh-day Adventist school should develop a statement of philosophy and objectives as well as a mission statement.

1. A copy of the philosophy, objectives, and mission statement should be made available to all parents, perhaps by inclusion in the school bulletin.
2. The teacher and school board should consider the statement of philosophy and objectives as a charge from the church constituency.
3. The parents and teachers should discuss the objectives with the students.
4. Each school board should develop a plan for a continual study of the philosophy and objectives of the school.
5. At the beginning of each school year, all teachers should prepare objectives for all classes they teach and clearly outline them for the students. These objectives must fit within the framework of the philosophy and objectives of the school.

502 Criteria Which Identify the Seventh-day Adventist School as an Integral Part of the Church (FEA 05 20)

Seventh-day Adventist schools are an integral part of the Seventh-day Adventist Church in the following ways:

1. “To restore in man the image of his Maker, to bring him back to the perfection in which he was created, to promote the development of body, mind, and soul, that the divine purpose in his creation might be realized—this was to be the work of redemption. This is the object of education, the great object of life” (*Education*, pp. 15, 16).
2. The commission given in Matthew 28:18-20 states that the basic task of the Church is an educational task.
3. The Seventh-day Adventist school system has as its basic evangelistic task the education and redemption of the children and youth of the Church. Its object is to promote the development of character and to direct the youth to a “knowledge of God, the Creator, and of Christ, the Redeemer, as they are revealed in the sacred word” (*Education*, p. 17). In pursuing this task, the school system has a greater continuing influence than any other aspect of the Church program.
4. The school is concerned about the whole person—body, mind, and soul—and seeks to ensure that youth receive a balanced physical, mental, moral, social, and practical education.
5. The school system emphasizes the principle of service to God and man. It prepares youth for lives of service whether as employees of the Church or as active, contributing lay members.
 - A. The students generally come from Seventh-day Adventist homes, and/or are baptized members of the Seventh-day Adventist Church.
 - B. The school may serve as an outreach to the community. When a school desires to recognize this potential ministry to the community, non-Seventh-day Adventist youth may be enrolled. This type of program carries additional responsibility as detailed in 1710.
6. The members of the local school boards and conference boards of education are solely members of the Seventh-day Adventist Church.
 - A. The school board is composed of members of the Seventh-day Adventist Church in regular standing who represent a cross section of the school constituency and who are supportive of Seventh-day Adventist education.

502, cont.

- B. The local conference and Union conference boards of education are composed of representatives of various church institutions and/or conferences, lay members of the Church, and church officials.
- 7. Educational employees must be active members of the Seventh-day Adventist Church in good and regular standing, committed to the program of the Church. Employment qualifications, licenses and credentials, salary and wages, benefits, and retirement are all established and regulated by the policies which cover all other denominational workers.
- 8. The uniquely designed curriculum in Seventh-day Adventist schools is developed by Church educators who ensure that the educational objectives of the Church are achieved.
 - A. It is based on a distinctive Seventh-day Adventist philosophy with a strong commitment to academic excellence.
 - B. It utilizes the best in current curricular research.
 - C. It reflects an awareness of the principles of human growth and development and the worth and dignity of each student.
 - D. It emphasizes a process which encourages, guides, and sustains the learner in a relationship with the Creator, and to his fellow human beings.
- 9. The title to school buildings and property is held by the conference association which is the legal corporation that holds title to all church and school properties.

504 Identification of “Seventh-day Adventist” Institutions

Denominational owned and operated institutions in the North American Division should identify themselves as Seventh-day Adventist institutions.

Privately-owned institutions are to refrain from the use of denominational names such as “Seventh-day Adventist,” “SDA,” or “Adventist” in their nomenclature and promotion.

600 Nondiscrimination Exception-Employment (FEA 05 30)

For Seventh-day Adventists the free exercise of religion includes the right to operate educational institutions that are distinctively Seventh-day Adventist. The creation and maintenance of such institutions require that they be staffed only by those individuals who are in complete harmony with the beliefs and practices of the Church. Hence, in the employment of personnel for its educational institutions, one of the occupational qualifications for any position is that the individual must be a Seventh-day Adventist, committed to the program of the Church.

600, cont.

School boards shall, officially and in practice, abide by the following policies relating to employment:

- 1. Equal employment opportunities shall be afforded to all on the basis of qualifications, without regard to race, color, gender, national origin, ancestry, physical handicap, age, height, weight, marital status (single or married), or prior military service.*
- 2. Inasmuch as the personal life and the professional identify of an individual are inseparable, all employees are expected to conform to the standards of conduct that are in harmony with Seventh-day Adventist principles*

1210 School Identity (FEA 25 10)

The school is a group of students pursuing defined studies at specific levels and receiving instruction from one or more teachers. Seventh-day Adventist schools are structured as follows:

1. Kindergarten

A conference-authorized kindergarten is an integral part of the conference system of education and should be sponsored, controlled, and financed as a part of the elementary education program. It is recommended that a separate instructor be employed rather than involving any other teacher who has a full-time teaching assignment. See sections 6000-6020.

2. Elementary School

An elementary school is a unit authorized by the conference board of education and administered by the conference office of education. It offers an organized education program which may be structured in a variety of ways in terms of community needs such as K-6, 1-6, K-8, 1-8. See Supplement A.

1210, cont.

3. Nine-Grade Intermediate School

A nine-grade intermediate school is a unit authorized by the conference board of education and administered by the conference office of education. It offers an organized education program which is structured to offer grade 9 in combination with and as an extension of grades 7 and 8. Approval for granting credit for secondary subjects must be made by the Southwestern Union Board of Education, K-12.

4. Junior Academy

A junior academy is a school authorized by the Union Board of Education and administered by the conference office of education. The organizational plan for a junior academy is to be based on one of the following options:

- A. The standard program grades 9 and 10
- B. The subject alternation program grades 9 and 10
- C. The multi-grade classroom grades 7 through 9
- D. The standard program grade 9

In selecting one of the options, consideration is to be given to the number of students, the needs of the students, and the ability of the community and the local conference to support the program.

5. Senior Academy

A senior academy is a school authorized by the North American Division Board of Education, K-12, to offer an education program to meet the needs of students in grades 9 through 12.

It is operated by a school board within the guidelines or constitution of the supporting constituency and in accordance with the policies of the union and conference boards of education.

6. Mission School

A mission school is denominationally organized and operated school primarily for non-Seventh-day Adventist.

- C. Support for the extension program must be demonstrated by a formal action of approval by the school constituency and the school board.
- D. Adequate plant facilities and equipment must be available on the junior academy campus.
- E. The staff and curriculum requirements are to meet the provisions as stated in the *Southwestern Union Education Code*.

Initial approval to operate an academy extension program is for a two-year probationary period. During the probationary period, the administration of both schools (sponsoring and satellite) are to submit a progress report each year to the Southwestern Union Office of Education and the local conference office of education by March 1 of each year.

The progress report is to report on such items as finances, physical plant, curriculum, staffing and equipment, giving particular emphasis to implementation of the stipulations as made by the original visiting committee.

Following receipt of the progress report, an on-site visit by the superintendent of schools and a representative of the Southwestern Union Office of Education shall be conducted each of the two years of the probationary period. The purpose of these visits is to verify the information contained in the progress report and to serve as the basis for a recommendation to the Southwestern Union Conference Board of Education and the conference board of education regarding continuation of the extension program. If serious problems are encountered, the program may be discontinued at the end of any semester by action of either the conference board of education or the Southwestern Union Board of Education, K-12.

1287 School Evaluation and Accreditation (FEA 25 50)

Evaluative instruments have been designed to provide guidelines by which constituencies and schools may systematically explore their beliefs about school organization, students, curricula, and the unique characteristics of their respective institutions. The use of these instruments should ultimately identify the degree of success with which the school community is meeting its objectives.

It is the responsibility of the union and conference offices of education to implement regularly scheduled programs of conference and K-12 school evaluation, utilizing instruments developed by the North American Division (Commission on Accreditation).

Union and conference K-12 boards of education shall review evaluation reports and recommend terms of accreditation to the NAD Commission on Accreditation for K-10 and K-8 schools, respectively. Review of K-12 and 9-12 secondary schools is a function of the NAD Commission on Accreditation which approves terms of accreditation for all schools, K-12, as the authorized agent of the Association of Seventh-day Adventist Schools, Colleges, and Universities in North America.

Data to indicate the recommended term of accreditation for K-8 schools is sent by the conference to the union conference office of education. The union conference will include the recommended term of accreditation for K-10 schools and forward all information to the North American Division Commission on Accreditation.

While the value of state, provincial, and/or regional accreditation is recognized, denominational evaluation and subsequent accreditation shall receive priority consideration.

1290 Annual Reports (FEA 25 45)

All K-12 schools shall submit an annual report, through conference and union channels, to the North American Division Office of Education.

1291 Records of Discontinued Schools (FEA 25 55)

The conference office of education is responsible for the preservation of all records of discontinued schools. If a new academy succeeds one that is discontinued, the old records are to be transferred to the new school. Otherwise, such records are to be transferred to the conference office of education.

1295 Subsidy Withdrawal

Any school which disregards the policies of the General Conference, the North American Division, the Southwestern Union or the local conference may be disqualified by the conference board of education from receiving a conference subsidy for operation of the school. Such action may also disqualify the school from being considered as a conference-operated school, and therefore sever its teachers from conference employment. Accreditation will automatically be withdrawn.

1300-1399 Constituencies\Operating Boards (FEA 30 05)

1302 School Constituencies

1. The school constituency consists of the members of the church or churches which operate the school.

The school board is responsible for the operation of the school within the guidelines and policies as stated in the Union *Education Code* and those adopted by the conference board of education and the school constituency as stated in the school constitution. The board has authority only when meeting in official session; individual members may not speak for the board. All actions of the board are implemented through its executive secretary (school principal) in cooperation with the board chair.

Because of legal responsibilities vested in the conference organization as the employing agency and because of the need to recruit and retain quality instructional personnel within policies and practices which respect their professional status, the employment, assignment, transfer, retirement, termination, or non-renewal of contract of certificated personnel is the function of the conference board of education. See also 3114.

The superintendent of schools, as executive secretary of the conference board of education, will make personnel recommendations to the board of education after consulting with local school administrative personnel and/or boards.

1306 School Operating Board—Membership (FEA 30 25)

The board shall be composed of members of the Seventh-day Adventist Church who represent a cross section of the school constituency. The church nominating committee(s) or the church board(s) acting in lieu of the nominating committee(s) elect the membership according to the provision of the school constitution. This membership shall include the chair and vice-chair (as needed). In addition to the above members, the boards of day schools should include the home and school leader and the pastor(s) of the constituent church(es). The school principal or the

1306, cont.

head teacher shall serve as secretary of the board. Union and conference office of education personnel and local conference officers are *ex officio* members of the board.

The school board members (other than *ex officio* members) are to be elected by the constituent church(es) in accordance with the school constitution or working policies. *Ex officio* members on all education/school boards are considered to be voting members of the board. There should be a plan of rotation of elected members in order to assure continuity of membership. Board members from the staff shall be limited to members of the administrative personnel. Other staff members may be invited by the chair to sit with the board for counsel but not as members. It is recommended that members of the current administration and teaching personnel's immediate family (spouse, children, siblings) should not serve as members of the School Board.

Each board member having school-age children should demonstrate support for Christian education by having their own children enrolled in an Adventist School.

1307 Officers

The officers of the school board shall consist of a chair and a secretary. In constituent school boards serving a school sponsored by two or more churches, a treasurer, a vice chairman, and an assistant secretary should also be appointed. The officers should be selected as stipulated by the school's constitution. The principal of the school is appointed as executive secretary although another member may serve as recording secretary.

1308 School Board Meetings (FEA 30 30)

The school board should meet at a regular time and place. Planning for and conducting the meeting will include the following:

1. A notice sent to all members giving the time and place of the meeting.

- B. *Some services provided by the Church and by the government may overlap. In some instances it is proper that the church institutions receive remuneration from the government. The Church and its institutions may also accept from the government certain limited benefits, such as tax exemption and police and fire protection.*

The Seventh-day Adventist church has benefited in many countries from the acceptance of various forms of government aid. It is also recognized that pitfalls do exist. Though the Bible does not specifically prohibit the acceptance of gifts from the government, such aid should be shunned when its acceptance would violate applicable law, would lead to excessive control by or entanglement with the government, would lead to dependence on the government, or in any other way would compromise the integrity of the Church or reduce its ability to design programs and curricula to fulfill its gospel commission.*

2084, cont.

- D. The Church recognizes that individual members may receive assistance from government program flowing directly to the benefit of parent or child. Church institutions may properly receive these funds. Programs that require cooperation between the government and the Church or church institution must not contradict provisions as outlined in this section.*

- C. The security of the risk (what is the potential harm to third parties);
- D. The probabilities the disease will be transmitted and will cause varying degrees of harm.

The board shall determine in light of the written report whether any reasonable accommodation can be made to retain the employee. **Each board shall seek local legal counsel with expertise in employment law before taking any action under this subsection, during the process, and before reaching any final disposition.**

3116 Employment Status

Note: For conferences whose executive committee has voted employees as at-will this section does not apply.

The Southwestern Union Conference has five kinds of employment status:

Intern
Transfer
Regular
Administrative
Probationary

1. Intern Status

An employee with three years or less of teaching experience or an employee who has not achieved standard or professional certification in a position that requires a certificate or satisfactorily fulfilled the qualifications and responsibilities as described in 3112, 3610, and 3612 shall be employed under an internship appointment. Such an internship appointment shall be granted under the following conditions:

- A. The internship shall be governed by an annual agreement, which shall have a certain 10- or 12-month term and be non-renewable.
- B. At the expiration of the annual agreement, the intern's course of employment shall cease. At the discretion of the employing organization, the intern employee may be offered subsequent internship employment, provided that such employment be under annual agreement for an additional 10- or 12-month term.
- C. The intern employee may be employed for a three year period through the use of successive annual agreements which are non-renewable.
- D. Such employees shall be interns and will hold a basic or conditional certificate until eligible for the standard or higher certificate. It is the employee's responsibility to take the necessary steps to secure proper certification. Upon successful completion of three years as an intern and receipt of a standard or professional denominational certificate from the Southwestern Union Office of Education, the employee shall be eligible to be considered for regular appointment.
- E. An employee under Intern agreement may be terminated by the employee or the employer at any time without notice or cause during the term of the annual agreement. (3132)

3116, cont.

2. Transfer Status

An employee who transfers into a local conference in the Southwestern Union educational system and who has already achieved the qualifications for regular employment may be placed on a transfer employment status for a period not to exceed three years when beginning work in the local conference.

- A. The transfer employee shall be governed by an annual agreement, which shall have a certain 10- or 12-month term and be non-renewable.
- B. At the expiration of the annual agreement, the transfer employee's course of employment shall cease. At the discretion of the employing organization, the transfer employee may be offered subsequent employment, based on a different employment status.
- C. It is the employee's responsibility to take the necessary steps to secure and maintain appropriate certification and other qualifications.
- D. Transfer employee may be terminated by the employee or the employer at any time without notice or cause during the term of the annual agreement (3132).

3. Regular Status

- A. An intern who has completed three years of full-time service in a position that includes duties requiring certification may be placed on regular appointment if the following conditions are met:

 - 2) Active Seventh-day Adventist church affiliation with evidence of loyalty to denominational standards and teachings.
 - 3) Fulfillment of requirements for the standard or professional denominational certificate.
 - 4) Fulfillment of the qualifications and responsibilities required of instructional personnel as described in 3112, 3610, and 3612.
 - 5) Recommendation of the superintendent or academy principal.
 - 6) It is the employee's responsibility to take necessary steps to secure and maintain appropriate certification and other qualifications.

3116, cont.

B. An employee who has been placed on transfer status because of a transfer within the system or because of a break in service may be placed on regular appointment if the following conditions are met:

- 1) Effective performance as determined by written professional evaluation.
- 2) Active Seventh-day Adventist church affiliation with evidence of loyalty to denominational standards and teachings.
- 3) Fulfillment of requirements for the standard or professional denominational certificate.
- 4) Fulfillment of the qualifications and responsibilities required of instructional personnel as described in 3112, 3610, and 3612.
- 5) Recommendation of the superintendent or academy principal.

C. The process for granting regular appointment shall be as follows:

- 1) The superintendent of schools or the academy principal shall make recommendations for regular appointment within the conference or academy.
- 2) The employing organization (i.e. the conference K-12 board of education) shall decide whether to grant regular appointment. Such decision shall be voted on by the employing organization and be noted in the official minutes of the employing organization.
- 3) The superintendent of schools or the academy principal, as the case may be, shall notify the employee in writing of regular appointment.
- 4) The superintendent of schools or the academy principal shall, at the same time as notification of regular appointment, tender the newly-appointed regular employee an annual assignment agreement for the following year period.

4. Administrative Status

- A. All employment policies are applicable to full time administrators. Full-time administrators may be employed for a specified term not to exceed three years at the discretion of the conference K-12 board of education in consultation with the local board.
- B. Full-time administrator shall be defined as an individual who is assigned administrative responsibilities by the employing organization for at least two thirds time. Eligible administrators are principals and business managers/treasurers.

3116, cont.

5. Probationary Status

- A. A probationary appointment is “at-will” and is for a term of employment of indefinite duration, terminable at will by either the employer or employee without notice or requirement of cause. To ensure continuity in the educational program, the employee is requested to provide written notice to the employing organization at least thirty (30) days prior to termination of the employment relationship by the employee. For just cause, including, but not limited to, if the professional service, personal conduct or influence of a regular employee is considered unsatisfactory, his regular appointment status may be reviewed by the employing organization and rescinded prior to the expiration of the annual assignment agreement. The employing organization may, for cause, including but not limited to unsatisfactory professional performance, personal conduct or influence, review and rescind a regular employee’s appointment status prior to the expiration of the annual assignment agreement.
- B. Additionally, former regular employees may be probationally re-employed in a probationary status at the expiration of the annual assignment agreement. The employee must receive prior notice of the employing organization’s intention not to renew the regular employee’s annual assignment agreement.
- C. The probationary period shall be for not less than three months and not more than one year. During the time the employee is probationary, he must be evaluated by the superintendent of schools or the academy principal or designee at least twice. At the end of the probationary employment, the employee may be continued on probation (not to exceed the one-year limit), may be returned to or placed on regular appointment, or shall be terminated by the employing organization.

3118 Teaching Assignments to Schools

1. Assignment to Schools

Assignments to elementary schools, and junior and senior academies will be made by the conference K-12 board of education. The recommendation for such action will be made by the superintendent of schools or academy principal in consultation with school boards.

2. Assignment Within Schools

Assignments within a school are the responsibility of the superintendent or academy principal in consultation with the local administration and board.

3120 Reassignment Within a School

All employees are subject to reassignment within a school when it is believed to be in the best interest of the school, provided such reassignment does not affect the salary of the employee while the employment agreement is in force. Employees who refuse reassignment initiated by the employing organization are subject to non-renewal of teaching agreement or termination. Reassignment shall be based upon the professional qualifications of the employee.

3122 Transfers

All employees, whether intern, transfer, regular, administrative, or probationary status, are employed by the conference K-12 board of education, not the local board. The employee recognizes that he/she may be transferred within the conference of the employing organization at its discretion. The employee acknowledges that the employing organization may encompass large geographical regions due to the location of Seventh-day Adventist educational institutions. In any case, authority for transfer of elementary and junior and senior academy certificated personnel shall be by action of the conference K-12 board of education, in consultation with the local board. In any case involving a senior academy employee, the academy board shall work closely with the local conference K-12 administrative body to effect a transfer.

1. Voluntary Transfer

- A. Certificated employees with regular or administrative status may, at anytime prior to the renewal of an employment agreement, request a transfer.
- B. Certificated employees in internship, transfer, or probationary status may also request a transfer during the period of employment.

2. Administrative Transfer of Regular or Administrative Status Employees

Administrative transfer of regular or administrative employees during the Annual Employment Agreement period is at the discretion of the conference K-12 board of education. (Note: Administrative transfers are transfers within the employing organization's geographical region.)

- A. The superintendent of schools may initiate an administrative transfer of regular employees in consultation with the local school board.
- B. Authority for transfer of regular employees shall be the decision of the conference board of education, K-12, in consultation with the local board. The local school board may recommend to the conference office of education the transfer of a regular employee, providing the following steps are taken:

3122, cont.

- 1) The principal and/or school board shall make a written recommendation, stating that the best interests of the pupils, the school, or the employee will be served by such a transfer.
 - 2) The superintendent of schools or academy principal must advise the employee through personal interview and in writing that an administrative transfer is to be recommended to the conference K-12 board for stated reasons. In the case of senior academy regular instructional personnel, the academy principal shall work closely with the superintendent of schools.
- C. Administrative transfers for regular employees may be made at the expiration of the annual employment agreement for the following reasons:
- 1) Insufficient enrollment
 - 2) Lack of funds
 - 3) The staffing of a new school
 - 4) The need for specialized services elsewhere
 - 5) Conflicting personnel relationships
 - 6) Any legitimate business interest or educational interest of the conference K-12 board of education

Such administrative transfer of an employee with a regular appointment may be made after his current employment term has ended and has not been renewed or after he has received written notification that conditions require an administrative transfer.

- D. Administrative transfers of employees with intern, transfer, probationary, regular, or administrative status may be made at any time during the employment term to include but not be limited to:
- 1) Unsatisfactory performance or conduct by the employee in his current position as indicated by professional evaluation.
 - 2) A determination by the employing organization that the employee cannot fulfill his duties and responsibilities but where the employing organization feels that the regular employee possesses the potential to achieve success elsewhere.
 - 3) Insufficient enrollment.
 - 4) Lack of funds.
 - 5) The need for specialized services elsewhere.
 - 6) Conflicting personnel relationships.
 - 7) Any legitimate business interest or educational interest of the conference K-12 board of education.

NOTE: Nothing in this section shall serve as a guarantee to the intern, transfer, probationary, regular, or administrative employee of continued employment. For cause, the employee may be terminated rather than transferred in accordance with 3132.

3122, cont.

- E. Employees are subject to transfer within the geographical area of the employing organization for any reason and at any time during the current school year or in subsequent school years. Employees who refuse transfers initiated by the employing organization are subject to dismissal if the transfer is requested during the current school year. Transfers of employees may be requested by the employing organization in its sole discretion.
- F. In the case of voluntary transfer and/or in the case of administrative transfers for regular or administrative employees, the employing organization shall make a reasonable effort to assist the employee in securing other comparable denominational employment where a teaching position, for which the regular employee is qualified, is available.
- G. After negotiations between the employing organization and the employee, if an administrative transfer cannot be effected, the employee may qualify for a termination settlement. See 3142.

NOTE: No obligation is implied by such voluntary assistance on the part of the employing organization. When a bona fide offer is presented to the regular employee and is declined by the employee, the employing organization shall be deemed to have met its Christian duty and shall be deemed to have made a reasonable effort in assisting the employee.

3124 Calls for Education Employees (E 45 60)

An educational institution or conference that may have interest in placing a call for an educational employee employed by another denominationally operated K-12 school shall observe the following procedure. Informal contacts to ascertain possible interest by an employee in accepting a call to another institution or conference may be pursued without permission of the current employer. When an administrator is at the point of obtaining formal references or interviewing a prospective educational employee, the prospective employee's current administrator or conference office of education must be notified. The prospective employer must be careful to inquire from the current or previous employer of possible indebtedness to the current or previous employer if such indebtedness may be assumed by the prospective employer.

If a prospective employee has not signed an employment agreement with the current employer for the next year, another educational institution or conference is free to offer the prospective employee an employment agreement without the current employer blocking the call. However, if the employee has signed an employment agreement for the next school year with the employee's current employer, the calling party must have the consent of the administrator or conference office of education before contacting an employee for an interview or placing a call.

3124, cont.

Every effort should be made on the part of school administrators to cooperate with the General Conference in filling emergency overseas calls which may arise at any time for teachers or employees working in denominational schools.

3125 Transfer Deadlines

1. Intern, Transfer, Regular, and Administrative Employees Transfer Date

The annual period of employment for all certificated employees shall end on June 30, unless otherwise agreed upon by the employing organization.

2. Voluntary Transfer of Intern, Transfer, Regular, and Administrative Employee During Summer

If an intern or regular employee is voluntarily transferred during the summer (with permission of the employing organization) during his contractual term of employment, salary and summer school expenses, if any, are assumed by the calling organization. The former organization shall carry the salary until a transfer date is agreed upon by the two organizations.

3126 Employee Notice of Non-Renewal

Any employee not intending to apply for or accept employment for the succeeding year shall submit a written notice of that intent with the superintendent or academy principal by April 1.

3128 Request Release from the Employment Agreement

If any release from the employment agreement is requested by an intern, transfer, regular, or administrative employee, to be effective during the contract period, written notice must be submitted to the superintendent or academy principal, at least 20 days prior to date such release is requested. The notification must specify the employee's reasons for resignation. Upon resignation during the school year and where the reasons for resignation are deemed acceptable to the employing organization, the employee's salary is paid through the last full working day. The termination policy (3132) does not apply.

Repayment of prepaid salary given in the summer before the employee actually begins work, salary advances, and/or unamortized expenses will be required before a release is given. The rate for calculating prepaid salary given in the summer before the employee actually begins work and salary advances shall be based upon the 10-month daily rate. The 10-month daily rate shall be based upon the 220 days within the agreement period. The employee shall be responsible for reimbursing the conference or senior academy for unamortized moving expenses

3128, cont.

on the same basis as outlined in local conference moving policy. The policy may be waived by the local conference or senior academy.

A resignation must be recognized by the employing organization by being recorded in the official minutes of the conference K-12 board.

Resignation, without reasons acceptable to the conference K-12 board of education, shall be considered a breach of the annual assignment agreement or contract and result in an appropriate notation made on the employee's service record and/or any other appropriate action which the employing organization deems necessary under the circumstances.

3130 Repayment of Prepaid Salary

Repayment of prepaid salary given in the summer before the employee actually begins work, salary advances and/or unamortized expenses will be required before a release is given. The rate for calculating prepaid salary given in the summer before the employee actually begins work and salary advances shall be based upon the 10-month daily rate. The 10-month daily rate shall be based upon the 220 days within the contract period. The employee shall also be responsible for reimbursing the conference or senior academy for unamortized moving expenses.

3132 Termination

1. Termination of Regular Appointments

When an educational organization in the Southwestern Union is considering termination of an employee, it is strongly recommended that the conference superintendent of schools consult legal counsel specializing in employment law and practicing in the local jurisdiction before taking any final termination action.

Regular employees are employed for either a 10-month or 12-month period under a written annual employment agreement. During the term of the annual employment agreement and prior to its expiration, a regular employee may be terminated *for cause* as determined by the employing organization.

Such cause includes but is not limited to any failure by the regular employee to adhere to the duties described in 3612 or any other "employee misconduct." "Employee misconduct" is the failure of the regular employee to perform his duties in the scope of his employment in such a manner as is consistent with the ideals of a member of the

3132, cont.

Seventh-day Adventist Church and an example of the standards of Christian conduct. “Cause” also includes but is not limited to the following reasons:

- A. Employee’s inability to perform essential job functions with or without reasonable accommodations.
- B. Employee’s incompetence or inefficiency as determined by professional evaluation.
- C. Employee’s indifference to pupil welfare.
- D. Employee’s lack of cooperation with administration or supervisors.
- E. Conflicting interpersonal relationships.
- F. Employee’s failure to comply with the working policies of the Seventh-day Adventist Church, conference policies and regulations, and failure to comply with the *Education Code*.
- G. Insubordination or failure to follow a supervisor’s reasonable orders, directives and recommendations, including failure to accept an administrative transfer or a reassignment within a school. See 3120, 3122.
- H. Immoral or unsatisfactory personal conduct not in accordance with the principles of the Seventh-day Adventist church.
- I. Committing, aiding, advocating, or being convicted of any crime that is a felony, or any crime involving moral turpitude, either a misdemeanor or felony.
- J. Persistence in advocating, practicing, or teaching beliefs or philosophy contrary to the basic tenets, standards, and doctrines of the Seventh-day Adventist Church.
- K. Failure to maintain the accepted standards of the Seventh-day Adventist Church.
- L. Use of alcohol, tobacco, or the illegal use of drugs.
- M. Social or moral problems which make the employee unfit to instruct or associate with children and youth.
- N. Membership in any organization advocating the overthrow of the government by force or subversion.
- O. Theft or dishonesty.
- P. Excessive absenteeism or tardiness regardless of the reason.

3132, cont.

Q. Failure to maintain a current denominational teaching certificate.

2. Termination of Intern, Transfer and Probationary Appointments

An intern, transfer, or probationary employee is an at-will employee, subject to termination at any time and for any reason during the internship or probationary period without notice or requirement of cause. The office of the superintendent of schools must be represented when a school board gives consideration to the termination of an intern, regular, transfer, or probationary employee during the term of the employment agreement.

3. Termination of Administrative Appointments

Administrative employees are employed for a specific term, limited to a three year maximum. During the term of employment, an administrative employee may be terminated for just cause as determined by the employing organization. See the definition of "just cause" in section one above.

3133 Procedures for Termination of Regular and Administrative Employees

Procedures for termination of regular and administrative employees during the course of employment and prior to the expiration of the term of the agreement are as follows:

1. Before an elementary or junior academy school board considers recommending termination of a regular employee, the school board chairman must notify the superintendent of schools of the proposed action. The office of the superintendent of schools must be represented when a school board gives consideration to the termination of any employee during the term of the assignment agreement.
2. The conference K-12 board of education makes the final determination of termination of the regular or administrative employee upon the recommendation of the local school board and/or conference superintendent before termination or non-renewal becomes effective. In the case of senior academy employees, the academy board upon the recommendation of the academy principal makes recommendation to the K-12 board for final determination of termination of the regular or administrative employees.
3. The superintendent of schools or designee shall give written notification of termination to the regular employee, including reasons for such action, the effective date of termination and discontinuance of salary, and the superintendent shall also inform the employee of his right of appeal that shall be initiated within fifteen days after receipt of notification of termination.

3133, cont.

4. Notification of intent to terminate an employment agreement by either the regular employee or the employer must be submitted in writing to all parties concerned at least 20 days prior to termination.

If the employee questions the decision, such employee may use the conciliation procedures outlined in 3310.

3134 Non-renewal of Regular Appointment

Non-renewal is discontinuance of salary and employment of the regular employee and may be done at the end of the annual assignment agreement by the employing organization.

Decisions regarding non-renewal may be made for reasons such as, but not limited to, the following reasons:

1. Insufficient or declining enrollment.
2. Lack of funds.
3. Conflicting personnel relationships.
4. Any legitimate business interest or educational interest of the conference K-12 board of education. (See 3132 for additional information)

Procedures for non-renewal of the annual assignment agreement are as follows:

1. Before a school board considers non-renewal of the annual assignment agreement, the school board chairperson must notify the superintendent of schools of the proposed action. The office of the superintendent of schools must be represented at a meeting where the school board gives consideration of non-renewal of the annual assignment agreement for regular employees.
2. The conference K-12 board of education makes the final determination of non-renewal of the annual assignment agreement upon the recommendation of the conference superintendent in consultation with the local school board.
3. The employing organization shall give written notice to the regular employee by May 1 of its intention not to renew the annual assignment agreement.

If the employee questions the decision, he has the right to use the conciliation procedures outlined in 3310.

3137 Administrative Leave

Administrative leave is the immediate removal of an intern, probationary, transfer, administrative, or regular employee from his/her duties to provide an opportunity for an investigation to take place, to relieve the employee from an emotionally stressful situation, to provide an escape from physical harm, or for other reasons deemed appropriate by the Superintendent of Schools in consultation with the Conference Administration. An administrative leave does not imply wrong doing on the part of the employee, but rather it provides a period of time to implement the proper procedures to deal with a given situation. The employee's benefits and pay shall continue during the time of administrative leave.

3138 Suspension of Regular Personnel

Suspension is the immediate removal of an intern, probationary, transfer, administrative, or regular employee from duties during the course of employment. An action of suspension may be taken by the superintendent of schools or academy principal under exceptional circumstances and where there is reasonable evidence of terminable conduct subject to "just cause" criteria.

The employee shall be notified in writing of his suspension and of his right to a review hearing before the employing organization, at a reasonable time and place designated by the employing organization. Failure to appear for the review hearing at the time and place designated may result in the termination of the employee.

Suspension without subsequent termination shall not exceed thirty days. Pay and benefits shall continue during suspension.

3140 Suspension or Revocation of a Teaching or Administrator's Certificate

1. A teaching certificate may be suspended or revoked for any of the following:
 - A. Any cause that is grounds for termination or non-renewal.
 - B. When a regular or term employment agreement has been prematurely terminated by the employee without the employer's consent.
 - C. When an employee resigns and fails to repay money owed to the employer such as but not limited to the following: advanced salary, unamortized graduate study assistance, unamortized moving expenses and housing loans.

3140, cont.

2. Procedure

- A. The superintendent of schools shall notify the employee in writing of the proposed action recommending suspension or revocation of a certificate including the right to a hearing by the conference board of education, K-12.

- D. The Union Director of Education shall give notice to the employee including the right to a hearing by the Southwestern Union Conference Board of Education.
- E. The Southwestern Union Conference Board of Education shall have the final decision, including the length of time for suspension or revocation.

- 3. The employee may submit a request for reinstatement of certification to the Southwestern Union Conference Office of Education after 90 days have elapsed since the final decision.

3142 Termination Settlement (Y36 05 – Y 36 70)

- *Settlement (Y 36 05)*

In order to provide transition funds for an involuntarily terminated full-time regular status Employee (“Employee”), a termination settlement may be provided under the terms of this policy. The settlement is not an earned employee benefit automatically provided in every case of employment termination.

Eligibility (Y 36 10)

A termination settlement may be granted to an involuntarily terminated Employee who has worked in denominational employment for at least two years. A resignation as a result of being counseled to resign by the employer is considered an involuntary termination for the purposes of this policy. Eligibility shall be determined according to the following criteria.

1. *Eligible for Termination Settlement*

- A. *Closure or reduction—An Employee voluntarily terminated due to closure of a denominational facility or staff reductions due to financial exigency or enrollment.*

3142, cont.

- B. *Lack of Performance—An Employee who is terminated for failing to adequately perform the functions of the job.*
- C. *Medical Condition—An Employee who is unable to continue employment because of a medical condition but is not eligible for disability benefits under the Employee Disability Income Plan (Y 33).*
- D. *Non Reelected/Reappointed—An elected/appointed Employee who is not reelected/reappointed, and for whom no further assignment consistent with the Employee’s training and/or experience is offered by a denominational employer.*
- E. *Full-Time to Part-Time—An eligible employee who (a) is involuntarily reduced from full-time employment to part-time employment, or (b) refuses the offer of part-time employment when their status has been involuntarily reduced from full-time employment in the same organization.*

2. Not Eligible for Termination Settlement

- A. *Part-time and non-regular status/local hire employees.*
- B. *Involuntary Termination—An Employee terminated for violation of organizational policies and/or practices regarding misconduct, or for criminal behavior.*
- C. *Retirement—An Employee who (i) is counseled to resign or terminated, (ii) is eligible for retirement benefits at his/her normal retirement age (as defined in the NAD Retirement Plan) and (iii) begins to receive retirement benefits following his/her cessation of employment.*
- D. *Resignation—An Employee who voluntarily resigns from employment.*
- E. *Continued Denominational Employment—An Employee who at the time of execution of the separation agreement (see Y 36 60) has declined a full-time denominational position consistent with the Employee’s training, compensation, and experience.*

Service Record (Y 36 20)

A termination settlement shall be recorded on the terminated Employee’s service record. Such settlement, however, shall not increase service credit, nor shall it cancel any part of the Employee’s service credit.

Settlement (Y 36 30)

- 1. *Payment—Any termination settlement paid under this policy shall be paid by the terminating employer to the eligible Employee in either a lump sum payment or in series of payments at the discretion of the terminating employer.*
- 2. *Calculation—The settlement shall be 25% of current monthly wages multiplied by total number of years of denominational service credit up to a maximum of twenty years. Current monthly wages shall include wages and cost of living adjustments, but shall not include area travel or any other allowances.*

3142, cont.

3. *Independent Transfers*—In the case of the termination of an Employee who has been voted an independent transfer, the settlement shall be calculated only on years of service earned as a church employee within the territory of the North American Division or as a regularly appointed interdivision employee from the North American Division.

Other Benefits (Y 36 40)

Any benefits payable at the time of termination under the employer's policies or as required by law, if any, shall have no effect on the calculation of this settlement. If an Employee has received a previous termination settlement under the terms of Y 36, any subsequent termination settlement shall be calculated based on years of service credit earned since the date of the previous termination settlement.

Health Care Benefits (Y 36 50)

Health care benefits in most situations cease with the effective date of termination (see Y22). However the terminating employer may provide continued medical benefits to the terminated Employee and dependents participating in the health care assistance plan at the time of separation. This assistance may continue (i) as required by applicable law, or (ii) for up to two months from the date of termination, or (iii) until the terminated Employee obtains health care assistance coverage, whichever occurs first. Terminated Employees shall promptly notify the terminating employer if they obtain health care assistance coverage while eligible for assistance under the policy.

Release (Y 36 60)

As a condition of receiving a termination settlement, terminated Employees are required to execute the separation agreement of their terminating employer, which shall include, without limitation, a waiver and release of any and all claims against their terminating employer, related organizations, and the officers, agents and employees of the terminating employer. The terminating employer will issue the separation agreement to the terminated Employee as soon as reasonably practicable following cessation of employment. Terminated employees will have 21 days from receipt of the separation agreement to sign and return it to the terminating employer, unless a longer time period for consideration and signature is required by applicable law. If the separation agreement is not signed and returned to the terminating employer within the applicable time period, the termination settlement may well be forfeited. (a model separation agreement and release for terminating employers is available from the North American Division.)

Variances (Y 36 70)

Properly constituted governing or administrative bodies of denominational employers may authorize a termination settlement at variance with the provisions of this policy in order to comply with national, state, provincial or local laws.

3142, cont.

A model release form is available from the Office of General Counsel of the General Conference.

3144 Remuneration of Certificated Personnel

Salary rates for certificated employees are determined annually by employing organizations in accordance with the Southwestern Union Conference wage scale and in compliance with applicable federal and state laws. The salary scale is structured in a package form that includes the basic monthly rate and allowances for housing, travel, utilities, telephone and professional improvement.

In addition to the salary, the employing organization may provide assistance for items such as moving expenses, tuition assistance for dependent children, and medical expenses.

Part-time certificated employees are not eligible for assistance on items such as moving expenses, tuition assistance for dependent children, and medical expenses.

3146 Certification Policies in Relation to Salary

1. When an experienced teacher is hired who has a state certificate or has had denominational certification, but is lacking courses for current Standard or Professional denominational certificate, the teacher shall be placed on the wage scale one increment below the denominationally certificated teachers with the same level of education and experience.

Such a teacher will be given a maximum of three years to complete the certification requirements. If the work is not completed in three years, then the wages will be adjusted downward one increment per year of teaching until certification is achieved.

2. A teacher with a BS/BA degree who has not qualified for Basic, Standard, or Professional certification will be on Step-I of the salary schedule.
3. A teacher who does not have at least a bachelor's degree will be on Step-II of the salary schedule.
4. Although a final decision is left to the employing organization, it is recommended that experience credit be given for all years of teaching, both public and private.
5. Teachers who allow denominational certification to lapse will have their salary reduced one step on the salary schedule each year they are employed without a valid denominational certificate.

3146, cont.

6. A principal of an elementary school or junior academy may receive an additional 2% and a head teacher of a one-, two-, or three-teacher school, an additional 1%. The maximum for anyone is Step IX of the salary schedule.
7. The maximum for a senior academy principal with a denominational administrator's certificate is Step IX.
8. Employees who allow their certification to expire may be terminated; or in lieu of termination, a regular employee may be placed on probation.
9. To obtain a current salary scale, contact your local conference department of education or the union office of education.

3148 Payment Plans

The following payment plans have been adopted for use in Southwestern Union Conference:

1. 12-month Assignment

Personnel assigned on a 12-month basis will receive regular salary payments based on established annual salary rates.

2. 10-month Assignment

All employees assigned on the 10-month basis will receive regular salary payments during each month of the calendar year based on a fixed percentage of the established annual salary rate. Generally, intern, transfer, and regular employees in elementary schools, junior academies, and senior academies shall be offered employment for a 10-month assignment. Exceptions to this general policy shall be voted by the conference K-12 board.

The 10-month assignment plan for intern, transfer, and regular elementary, junior academy, and senior academy employees entitles them to all employee benefits.

3. Probationary Employees

Probationary employees will be paid salary payments either on a 10- or a 12-month salary rate depending on the type of employment position which they hold. Probationary employees are entitled to all employee benefits, but only during the course of their employment.

3148, cont.

4. Special Denominational Projects/Summer Employment

Certificated employees paid pursuant to a 10-month assignment may be employed on special denominational projects during the time they are not under the direction of the principal or superintendent of schools.

5. Outside Employment

All full-time intern, transfer, probationary, regular, and administrative employees will not engage in any outside employment or educational matriculation that will interfere with the quality of individual performance of the education program for which the employee has been hired.

3150 Delayed Hiring

Intern, transfer, probationary, and regular employees on a 10-month assignment plan who are employed after the designated report-to-work date are paid proportionately to the number of days actually employed.

3152 Social Security

All denominational educational personnel (except licensed or ordained ministers) are covered by Social Security through their respective organizations. The employee and the organization contribute to the Social Security fund as required by law.

Educational personnel licensed or ordained as ministers may be responsible for the payment of Social Security as self-employed individuals. Ordained ministers may be eligible for the parsonage expense exclusion when reporting for income tax purposes.

3156 Disability Retirement

The employing organization shall be responsible for the six months' salary allowed certain employees after they become incapacitated and cease work before being admitted to the disability insurance program.

3158 Conflict of Interest (E 85 05 – E 85 20)

1. Conflict of Interest and/or Commitment Defined

Conflict of interest shall mean any circumstance under which an employee or volunteer by virtue of financial or other personal interest, present or potential, directly or indirectly, may be influenced or appear to be influenced by any motive or desire for personal advantage, tangible or intangible, other than the success and well being of the denomination.

Because of the common objectives embraced by the various organizational units and institutions of the Seventh-day Adventist Church, membership held concurrently on more than one denominational committee or board does not of itself constitute a conflict of interest provided that all the other requirements of the policy are met. However, an officer, trustee, or director serving on an organization's board is expected to act in the best interest of the organization and its role in denominational structure.

A conflict of commitment shall mean any situation which interferes with an employee's ability to carry out his/her duties effectively. Elected, appointed, or salaried employees on full time assignment are compensated for full time employment; therefore, outside or dual employment or other activity, whether compensated or not, that in any way interferes with the performance of an employee's duties and responsibilities is a conflict of commitment. A conflict of commitment also exists in situations where an employee functions contrary to the values and ethical conduct outlined in the organization's statement of ethical foundations and conduct (see model Statement of Ethical Foundations recommended by the 1999 Annual Council as guidelines for divisions) or when an employee functions contrary to established codes of ethical conduct for employees in particular professions (e.g. legal, investments).

2. Individuals Included

All trustees, officers, executive committee/board members, employees, and volunteers of denominational organizations shall be subject to this policy.

3. Conditions Constituting Conflict

A trustee, officer, executive committee/board member, employee, or volunteer has a duty to be free from the influence of any conflicting interest or commitment when serving the organization or representing it in negotiations or dealings with third parties. Both while on and off the job an employee is expected to protect the best interests of the employing organization. The following list, though not exhaustive, describes circumstances and conditions that illustrate conflict of interest or commitment.

A. Engaging in outside business or employment that encroaches on the denominational organization's call for the full services of its employees even though there may be no other conflict.

3158, cont.

- B. *Engaging in business or employment that is in any way competitive or in conflict with any transaction, activity, policy, or objective of the organization.*
- C. *Engaging in any business with or employment by an employer who is a supplier of goods or services to any denominational organization.*
- D. *Making use of the fact of employment by the denominational organization to further outside business or employment, associating the denominational organization or its prestige with an outside business or employment, or using one's connection to the denomination to further personal or partisan political interests.*
- E. *Owning or leaving any property with knowledge that the denominational organization has an active or potential interest therein.*
- F. *Lending money to or borrowing money from any third party, excluding financial institutions, who is a supplier of goods or services, or lending to/borrowing from a trustor or anyone who is in any fiduciary relationship to the denominational organization or is otherwise regularly involved in business transactions with the denominational organization.*
- G. *Accepting or offering of any gratuity, favor, benefit, or gift or of any commission or payment monetary or non-monetary, of greater than nominal value, in connection with work for the denominational organization other than the compensation agreed upon between the denominational organization and/or the employer and the employee.*
- H. *Making use of or disseminating, including by electronic means, any confidential information acquired through employment by the denominational organization for personal profit or advantage, directly or indirectly.*
- I. *Using denominational personnel, property, equipment, supplies, or goodwill for other than approved activities, programs, and purposes.*
- J. *Expending unreasonable time, during normal business hours, for personal affairs or for other organizations, to the detriment of work performance for the denomination.*
- K. *Using one's connections within the organization to secure favors for one's family or relatives.*

4. Statement of Acceptance

- A. *By employees—At the time of initial employment an employee shall sign a statement indicating acceptance of the conditions of employment as outlined in the organization's employee handbook. This acceptance shall constitute the employee's declaration of compliance and resolve to remain in compliance with the conflict of interest and/or commitment policy. On an annual basis the employer shall provide employees with a copy of the Statement of Ethical Foundations, plus a copy of the conflict of interest and/or commitment policy, and shall inform employees regarding the duty to disclose potential conflicts of interest and/or commitment.*
- B. *By administrators, department directors and trustees—The chief administrator, or designee, of the organization concerned shall receive annually a statement of acceptance and compliance with the policy on conflict of interest and/or commitment from each administrator, department director, member of the board/executive*

3158, cont.

committee, and any other person authorized to handle resources of the organization. (The employing organization may determine that other individuals shall also be required to submit annually a statement of acceptance and compliance.) Submission of the statement by persons indentified above shall constitute a declaration of compliance with the policy and shall place the individual under obligation to disclose potential conflicts of interest and/or commitment that may arise during the ensuing year.

- C. *All statements of acceptance and compliance shall be reviewed annually through a process and reporting mechanism as determined by the board/executive committee of the organization.*

Chapter 3 – Classified Employees

3210 Definition of Classified Employees (FEA 35 35)

Classified employees are school personnel for whom denominational certification is not deemed an essential part of the job description.

3212 Categories of Classified Employees

Classified employees shall be hired in one of the following categories:

1. Exempt Classified (Salaried)

An exempt classified employee is one who meets the exemption criteria of the Fair Labor Standards Act and is employed in a management or supervisory position not requiring denominational certification such as an industrial manager, service department head or director of food services

2. Non-exempt Classified (Hour-time)

A non-exempt classified employee is an employee who is not exempt under the Fair Labor Standards Act and who is not involved directly in school administration, or industrial and plant service management such as but not limited to the following:

- A. Paraprofessionals (teacher aides)
- B. Related instructional personnel
- C. Secretaries
- D. Non-management custodians or plant service personnel
- E. Non-management cafeteria personnel
- F. Security guards
- G. Bus drivers

3212, cont.

H. Hour-time industrial/agricultural employees

Other employees who do not perform an administrative or instructional role such as accountants or cashiers and some registrars are also considered non-exempt classified employees.

3214 Criteria for Determining Whether Classified Employees are Exempt or Non-exempt

The Federal Fair Labor Standards Act of 1938, and as subsequently amended, clearly defines and delimits the “employee employed in a bona fide executive, administrative or professional capacity (including any employee employed in the capacity of academic administrative personnel or teacher in elementary or secondary schools),” as salaried classified employees.

The earnings of all other employees are to be calculated on an hour-time basis.

The following guidelines are provided to aid the employer in differentiating between hour-time and salaried classified personnel for remuneration purposes.

1. Administrative and Instructional Personnel

An individual employed in a bona fide administrative role is one:

- A. Who does not devote more than 20% of his time to non-administrative functions.
- B. Who receives no less than \$155 per week exclusive of board, lodging, etc.
- C. Whose primary duty consists of either—“The performance of office or non-manual work directly related to management policies of general business operations of his employer,” or “The performance of functions in the administration of a school system or educational institution or of a department or subdivision thereof, in work directly related to the academic instruction or training carried on therein”; and “Who customarily and regularly exercises discretion and independent judgment, etc.”

2. Classified Personnel

Employees in key office, industrial and plant supervisory positions not qualifying as salaried employees under the Fair Labor Standards Acts must be paid on an hour-time basis with overtime pay as prescribed by law. The responsibilities carried by these individuals shall be reflected in the hourly wage rate.

3220 Employees Working in More Than One Employment Category

If an employee is working in more than one employment category, the area in which he spends the largest amount of his time shall define his category as determined by the conference K-12 board.

3222 Qualifications of Classified Employees

1. Spiritual—Classified personnel shall be members of the Seventh-day Adventist Church and exemplify high standards of Christian conduct. They shall maintain membership in constituent or academy churches and are expected to participate in church activities, programs and finances. Exemptions to this requirement may be granted by the conference board of education or academy board when an employee requests such exemption in writing, showing good reasons for maintaining church membership elsewhere.
2. Personal—Classified personnel must have personal, moral, and other qualifications to instruct or associate with children and young people in an educational institution. Support Adventist education including the enrollment of personal school-age children in the K-12 constituent school. Exceptions to this policy have to be considered according to local conference policy.

3224 Authority to Employ Classified Personnel

The conference board of education derives its employment authority from the conference Executive Committee. To ensure the effective and orderly operation of the K-12 schools within the conference, the conference board of education delegates certain personnel functions to school boards.

Although the school receives delegated authority from the conference to operate in defined areas, the conference cannot divest itself of its inherent legal obligations. Inasmuch as the Conference Association (in which school ownership rights are invested) remains legally bound by actions of school boards, it is incumbent that there be close cooperation between the school board and the conference Office of Education in the operation of schools and in all actions taken regarding school personnel.

Thus, because of legal obligations to protect both students and school assets, the hiring of all instructional personnel in Seventh-day Adventist schools in the Southwestern Union Conference shall be supervised by the conference Office of Education. All classified personnel are subject to thorough background checks, including, but not limited to, criminal background checks. All classified personnel shall have their payroll services provided by the local conference treasury.

3224, cont.

The following employment policies for hiring classified employees shall be followed:

1. In the employment of classified personnel the employee shall be considered a conference employee. For those employees that are locally funded the local schools will be billed for salary retirement contributions, if applicable, Social Security contributions, plus allowances and benefits as may be specified by the local conference Executive Committee for each specific class of employees or as required by law.
2. Since all schools are part of the Seventh-day Adventist school system, they will follow the employment guidelines for classified personnel as set forth in this document.
3. In schools with a principal, classified personnel will be recommended for employment, assignment, retirement, termination or dismissal to the school board by the principal. In schools without a designated administrator, classified personnel will be recommended for employment, assignment, retirement, termination or dismissal to the school board by the head teacher in counsel with the school board chair.

However, all instructional personnel shall be hired on the basis of the recommendation of the local conference office of education which shall supervise background checks, including, but not limited to, criminal background checks.

4. The employment, assignment, retirement, termination or dismissal of classified personnel K-12 shall be by recommendation of the local school board.

3226 Salaried Classified Employment Policies

The general employment policies are applicable to salaried classified personnel employed by a conference or academy.

Individuals given an offer of employment in a classified position will be required to provide documentation of examination for any testing required by the state or employing organization (i.e., tuberculosis) within the preceding 60 days.

Classified employees may be required to submit to a job-related medical examination during their employment by a licensed physician where such a job-related medical examination is justified. The results of a job-related medical examination will be considered by the employing organization in compliance with applicable laws.

Employees shall immediately inform the superintendent/principal upon discovery of a contagious or communicable disease. All medical records will be maintained by the employing organization as confidential, separate from employee personnel or service records.

3226, cont.

The employing organization reserves the right to test for alcohol, tobacco, and illegal substances.

3228 Employment Plan for Hour-Time Classified Employees

An hour-time, classified employee is employed on one of the following plans.

1. Full-time employment

A full-time, hour-time classified employee is one who works and is remunerated for a minimum of 30 hours per week annually (12 months).

2. Part-time employment

A part-time, hour-time, classified is one who works and is remunerated for less than 30 hours per week annually.

3230 “At-Will” Employees

All hour-time classified employees are considered “at-will” employees, employed for a term of employment of indefinite duration terminally at will by either the employer or employee without notice or requirement of cause. However, termination of all such employees shall be by vote of the employing board.

3232 Probationary Period

Before being eligible for any benefits and allowances including vacation and sick leave pay, an employee must work satisfactorily for 90 days. Holidays will be granted during this probationary period. Vacation and sick leave time will accrue during the 90 days.

3234 Remuneration for Non-Exempt Classified Employees (GL 9)

Remuneration for a non-exempt classified employee consists of the wage and allowances or benefits for which the employee qualifies.

Wages for a non-exempt, classified employee are established by the school board in consultation with the principal and the local conference superintendent or his designee and are determined annually after consideration of the following factors:

3234, cont.

1. The job description
2. Years of employment
3. Level of experience or expertise
4. The prevailing community rate for comparable position unless community rate exceeds the maximum of the wage scale
5. The number of working hours per week
6. The number of weeks employed

OVERTIME

Overtime (time and one half) begins after working 40 hours per week. It includes only hours actually worked.

3236 Service Credit for Classified Employees (Y 47 05)

Some conferences have local church and elementary school personnel on their payroll with costs funded by the church or school. These employees are eligible to earn denominational service credit.

3238 Employee Service Records (E70 05)

An up-to-date service record is to be maintained for all classified employees. Permanent records shall be maintained by the local conference secretary or senior academy administrator because of the implications for the church's retirement plan. Periodically a copy of the employee's service record shall be given to the employee to assure its accuracy.

For additional requirements see (Working Policy E70 – E70 40)

3240 Employment Eligibility Verification, Form I-9

A classified employee who is employed after November 6, 1986 must have an I-9 Form, "Employment Eligibility Verification," U.S. Department of Justice, Immigration and Naturalization Service, on file with the employing organization.

3242 Termination of an Hour-Time Classified Employee

When an educational organization in the Southwestern Union is considering termination of an employee, it is strongly recommended that the conference superintendent of schools contact legal counsel specializing in labor relations before taking any final termination action.

3242, cont.

1. At-will employee:

A non-exempt, classified employee is hired and employed at-will and is subject to termination by the employing organization at any time without notice or requirement of cause. Non-exempt classified employees are requested to provide two weeks notice to the employing organization of their resignation from employment.

2. Procedure

- A. The school administrator shall consult with the superintendent of schools and school board chairperson when considering termination of a classified employee.
- B. The school board's personnel committee acts on the recommendation for termination of the employee.
- C. The school board acts on the personnel committee's recommendation with the superintendent of schools or designee present in the case of instructional personnel.
- D. The K-12 board or their designee will act upon the recommendation of the school board.
- E. The principal or board chairman notifies the employee in writing within five days of the school board action.

3244 Termination Settlements

Full-time hour-time classified employees may be eligible for a termination settlement as outlined in 3142.

3246 Conciliation Procedures

To settle disputes, hour-time classified employees shall use the conciliation procedures as outlined in 3310.

3248 Physical Examinations for Classified Employees

Individuals given a conditional offer of employment will be required to provide documentation that he/she has been examined for tuberculosis within the preceding 60 days and that the results of that examination/test are satisfactory to the employing organization.

3248, cont.

Individuals who refuse to provide documentation regarding the tuberculosis examination to the employing organization will be ineligible for employment. The results of this examination/test will be considered by the employing organization in compliance with applicable laws.

Classified personnel may not be confirmed for employment until completion of the medical examination as required by the employing organization.

Current employees shall be required to provide documentation of a tuberculosis examination/test at least every four years.

Records regarding tuberculosis examination/test will be maintained by the employing organization as confidential medical records separate from employee personnel or service records.

This requirement may be waived in the sole discretion of the employing organization for an employee who is to be employed for a time period less than a full school year or whose job functions do not require frequent or prolonged contact with students.

Classified employees may be requested to submit to a job-related medical examination during their employment by a physician selected by the employing organization or selected by the employee where such a job-related medical examination is justified by business necessity or a direct threat of harm to self, co-workers, or students.

Custodial, maintenance, or other personnel who may work directly with asbestos shall be required to wear protective clothing, respirators and other safety devices in compliance with the Asbestos Hazard Emergency Response Act (AHERA) and the Occupational Safety and Health Act (OSHA) and applicable regulations. The employing organization may require job-related medical examinations at no expense to the employee for those employees who wear respirators.

3249 Background Checks

Individuals given a conditional offer of employment in an instructional classified position must follow the NAD background check policy. Results of that check must be satisfactory to the employing organization in order for the individual to be eligible for employment.

3250 Resignation by an Hour-Time Classified Employee

A non-exempt classified employee who plans to resign is requested to give at least a two week notice to the local school board in order to give the employing organization time to obtain a suitable replacement.

3252 Harassment Policy

The harassment policy outlined in 3420 is also in effect for classified personnel.

Chapter 4 – Employee Conciliation Procedures

3310 Conciliation Procedures (BA 42 05 – BA 42 85)

1. Purpose (BA 42 05)

The purpose of this conciliation policy is to promote unity and harmony while reconciling differences that may arise. It outlines a process by which problems may be resolved and a sound employer/employee relationship strengthened.

Christians should make every effort to avoid tendencies that would divide them and bring dishonor to their cause. Reconciliation of differences should be possible without recourse to civil litigation, much of which is carried on in a spirit of contention that results from and reveals human selfishness.

The emphasis of this policy is placed on candid and open communication between those involved. The process emphasizes the solution of problems at the level closest to their origin and is based on the premise that each party is interested in fair and just solutions to grievances.

Inasmuch as these are collegial proceedings, the conciliation procedure shall be conducted by the employee, the school, or the conference without an appearance by or participation of legal counsel, unless the attorneys are present to provide expert counsel on specific legal matters. All parties must agree on the process in advance.

2. Definitions

- A. Grievance—A grievance shall be any claimed misinterpretation, inequitable application or violation of the policies or regulations of the school, conference, Southwestern Union Conference, North American Division, General Conference, or state and federal laws that apply to private schools.
- B. Grievant—“Grievant refers to any employee who has a grievance as defined in Section A above.

In cases involving discontinuance of employment, the grievance should also be presented to the superintendent within 15 working days of receiving written notification of termination.

B. Step Two

If the informal contact does not resolve the issue, the employee may present the grievance in writing to the administrator within 15 working days following the informal contact referred to in "Step One." The administrator shall reply in writing to this formal complaint within 15 working days from receipt of written notice, indicating a decision regarding the grievance.

C. Step Three

If the decision contained in the written response from the administrator in Step Two does not resolve the issue, the employee may appeal the decision by requesting, in writing, within five (5) working days following receipt of the decision, that the matter be referred to the conference office of education. The superintendent, in consultation with the human resources director, will respond in writing within 15 working days.

D. Step Four

If the decision contained in the written response from the office of education in Step Three does not resolve the issue. The employee may appeal the decision by requesting, in writing, within five (5) working days following receipt of the decision, that the matter be referred to the K-12 board of education. A timely request of appeal is to be considered within 30 days following the receipt of the appeal. The decision of the board is to be communicated in writing to the employee within five (5) working days following the decision.

E. Step Five

If the decision contained in the written response from the conference K-12 board of education does not resolve the issue, the employee may appeal the decision in writing to the next higher committee/board within the conference within five (5) working days of receipt of the decision. A timely request for appeal is to be considered at the next regular or special meeting following receipt of the appeal. The decision of this committee/board is to be communicated in writing to the employee within five (5) working days following the committee/board meeting.

The decision of this committee/board will be considered as final except in cases where denominational policies allow for further appeal.

4. General Provisions

- A. The employee shall be given the opportunity to be present at each of the meetings at which an appeal is being considered. The decision regarding the grievance may be made in executive session.
- B. Notifications specified in Steps 1 through 5 above will be either hand delivered to the employee with signed and dated receipt or sent by certified mail, return receipt requested.
- C. Extension of time limits may be made by mutual consent. Such agreements should be put in writing, signed by both parties, and a copy filed at the next higher level. However, if the administrator fails to respond within the prescribed time limits (where there has been no mutual extension) the grievance will be automatically processed to the next step. If the employee fails to appeal within the prescribed time limits, when there has been no mutual extension, the grievance will be concluded.
- D. By written agreement between the administrator and the employee, one or more steps may be added or omitted in processing a grievance.
- E. A grievance may be dropped by the employee at any time by so designating to the administrator in writing.

- H. All parties shall have access to information reasonably necessary to the processing and determination of a pending grievance.

- J. Agreement, consents, or understandings must be in writing, bearing the signature of the employee and appropriate employing administrator.

3310, cont.

- K. In the event there is a grievance which involves a number of employees, it may be submitted as a group grievance with the employees involved being named in all appropriate correspondence.
- L. Formal transcribing or electronic recording of the conciliation procedures shall occur only by written consent of all parties involved.

Chapter 5 – General Provisions Relating to Employment

3410 Revision of Policies

The Southwestern Union K-12 Board of Education retains the right to amend and revise any or all education policies (for certificated and classified personnel) at any time when, in its judgment, conditions warrant such a move. No existing employment agreements in force at the time such a change is made shall be affected until the expiration of said agreements.

3420 Sexual Misconduct in Church Relationships Involving Denominational Employees and Approved Volunteers

The Southwestern Union Conference fully adheres to the *North American Division Working Policy* regarding sexual misconduct as found in section E87 as shown below.

Sexual Misconduct in Church Relationships Involving Denominational Employees and Approved Volunteers-Model Procedures

Introduction (E 87 05)

1. *Appearances of Wrongdoing—Denominational employees, volunteers, and endorsed chaplains shall exemplify a Christ like life and avoid all appearances of wrongdoing. They must not engage in behavior that is harmful to themselves or others. Denominational employees, volunteers, and endorsed chaplains should respect every individual. To do otherwise is not consistent with the Christian life.*
2. *Violations of Christian Principles—Sexual Misconduct is a violation of Christian principles. Sexual Misconduct is never condoned by the Seventh-day Adventist Church. Denominational employees, volunteers, and endorsed chaplains are entrusted with sacred responsibilities which include refraining from Sexual Misconduct. It is expected that persons functioning in these roles will not engage in such behavior.*
3. *Improper Actions Compromise the Church and Its Message—The Church and its message are compromised by improper actions of employees, volunteers, and endorsed chaplains. Church organizations seek to respond to situations where the fitness of a person for service to the Church is called into question due to accusations of Sexual Misconduct. Church organizations also seek to advance the healing and integrity of all persons influenced by its ministry.*

Purpose (E 87 10)

1. *Model Procedures—The purpose of this policy is to provide model procedures for use by church entities that respond effectively to allegations of Sexual Misconduct against*

3420, cont.

denominational employees and volunteers. The North American Division strongly recommends that all local conferences, union conferences, educational, and health care institutions, and all other North American Division church-related entities and boards establish procedures to address Sexual Misconduct.

2. *Implementation—Organizations which adopt these procedures shall inform those responsible regarding the implementation of such procedures. These organizations shall also take reasonable steps to inform members, denominational employees, volunteers, endorsed chaplains, students, and others of these procedures. All church organizations must determine and comply with the abuse reporting requirements of their state or province. If government agencies or authorities become involved in allegations pertaining to Sexual Misconduct, all individuals are reminded of their duty to cooperate.*
3. *Policy Limitations—This policy is not intended to supersede any conflicting provisions in existing personnel policies, valid contracts, or any provisions of the Seventh-day Adventist Church Manual. In the event of any such conflict, the organization, or entity enacting procedures to address Sexual Misconduct should consult legal counsel to eliminate the conflict.*
4. *Unusual Situations—Further, this policy will not address every Sexual Misconduct situation that may arise in a given territory. It is expected that the officials of the North American Division entities using these procedures, will consult their attorneys, executive committees, and boards when an area of conflict arises that is not specifically addressed in these procedures.*

23. *Victim*—Any individual whose allegation(s) of Sexual Misconduct has been determined by the Executive Officers/Administration or the Sexual Ethics Committee (SEC) to more likely to be true than untrue.

Guiding Principles and Concepts Underlying the Development of This Policy (E 87 20)

1. *Serious Treatment of Accusations—All accusations of Sexual Misconduct shall be taken seriously. No accusation shall be dismissed without a response, and all shall be processed in a timely manner. The Accused and the Accuser shall be treated with respect.*
2. *Paths for Review—The Accuser may bring his/her allegations of Sexual Misconduct to the attention of the Executive Officers of the Local Entity or to the attention of the organizational Concerned Care Practitioner.*
3. *Presumptions—The filing or failure to file a complaint or denial shall not be deemed to be conclusive evidence of any issue, but may be considered as part of the evidence received by the Concerned Care Practitioner or the Designated Officers.*
4. *Protection of All Involved—The confidentiality of those involved, including the Accused and the Accused's family, the Accuser and the Accuser's family, shall be respected.*
5. *Discipline—A denominational employee, volunteer, or endorsed chaplain who has engaged in Sexual Misconduct is subject to discipline as outlined in the North American Division Working Policy, Seventh-day Adventist Church Manual, applicable personnel policies, or employment contracts.*
6. *Expenses—The expenses incurred to implement this policy should usually be borne by agreement between church entities. The goal of this policy is the protection of the members, the employees, and the mission of the church; therefore, a primary beneficiary of these procedures is the overall church and its members.*
7. *Unbiased Considerations—To protect the integrity of the proceedings outlined in this policy, the Designated Officers and the members of the Sexual Ethics Committee (SEC) shall be free of actual or apparent bias, prejudice, predisposition or conflict of interest that may be material to the issues, proceedings, or individuals involved. Any of these individuals who are or appear to be biased, prejudiced, predisposed, or have a conflict of interest, shall be replaced or excluded from appointment. The Discipline Committee should also be free of actual or apparent bias, prejudice, predisposition, or conflict of interest that may be material to the issues, proceedings, or individuals involved.*
8. *Local Entity Issue—It shall be the recommendation of the North American Division that member entities address issues involving Sexual Misconduct. Such review and discussion should involve procedures in which an Accuser can state the nature and facts that constitute the accusation sufficiently to allow for an examination of the accusation and appropriate action, if factually supported. Such review and discussion may be formal or informal, but it should involve the Executive Officers.*

3420, cont.

9. *Role of the Concerned Care Practitioners (CCP)—In situations where the Accuser feels uncomfortable in expressing his/her concerns to the Executive Officers/Administration at the Local Entity or the Accuser will not communicate directly with the Executive Officers/Administration, due to conflict of interest or other unforeseen issues, it shall be the recommendation of the North American Division that a Concerned Care Practitioner (CCP) be made available to the Accuser. Such Concerned Care Practitioner (CCP) shall have a limited role. The function of the Concerned Care Practitioner (CCP) shall be to gather facts from the Accuser and present such facts to the Executive Officers/Administration. The Concerned Care Practitioner (CCP) may be asked to maintain a role throughout any follow up investigation by the Executive Officers/Administration, where applicable, to assist in formulating questions or on any follow up questions that the Executive Officers/Administration may have to assist in resolution.*

The concerned Care Practitioner (CCP) shall not render advice on actions to be considered or conduct an investigation outside fact gathering from the Accuser. The Concerned Care Practitioner (CCP) shall agree to keep the issues revealed through the role of Concerned Care Practitioner (CCP) confidential to the extent permitted by law.

Usually the Concerned Care Practitioner (CCP) will personally meet with the Accuser and listen to the allegations. The Concerned Care Practitioner (CCP) may ask for a written account of the allegations beyond the Submission. Once the Concerned Care Practitioner (CCP) has completed the fact finding, he or she shall report to the Executive Officers/Administration. Such report may be in writing or it may be verbal at the Executive Officers/Administrations' sole discretions.

The Concerned Care Practitioner (CCP) shall advise the Accuser that while the Concerned Care Practitioner (CCP) shall endeavor to respect the Accuser's privacy, the facts revealed shall be reported to the Executive Officers/Administration. The Concerned Care Practitioner (CCP) shall advise the Accuser that copies of any documents prepared or submitted shall be shared with the Executive Officers/Administration.

The Concerned Care Practitioner (CCP) shall advise the Accuser that the Concerned Care Practitioner (CCP) is not an advocate and that there is no counselor/counselee relationship established by their relationship. The relationship is simply for the purpose of fact gathering by a neutral third party removed from the Executive Officers/Administration and that such facts gathered shall be reported to the Executive Officers/Administration.

Once the Concerned Care Practitioner (CCP) has completed the fact gathering task, the Concerned Care Practitioner (CCP) shall report to the Executive Officers/Administration in a timely fashion and consistent with this policy. The Concerned Care Practitioner (CCP) shall thereafter, have no involvement in subsequent actions by the Executive

3420, cont.

Officers/Administration unless asked to provide additional assistance solely by the Executive Officers/Administration.

Selection of Concerned Care Practitioners Pool (CCPP) (E 87 23)

1. *The Concerned Care Practitioners Pool (CCPP) shall be selected by the local conference, union conference, or division executive committee and to the extent practicable, reflect the diversity of members. In small rural areas where a Concerned Care Practitioners Pool (CCPP) may not have sufficient members from which to select a pool, the next larger organization should be considered to provide assistance.*
2. *Members Qualifications—Members selected to serve on the Concerned Care Practitioners Pool (CCPP) shall:*
 - a. *Be members of a local congregation in regular standing.*
 - b. *Be free of predisposition, bias or conflict of interest that may be material to the proceedings or issues involved; and*

Procedures for the Concerned Care Practitioners (E 87 24)

1. *Once the Executive Officers/Administration at the local level becomes aware of an allegation of Sexual Misconduct, they shall notify the Accuser of his or her option to present the details of the accusation to the Executive Officers/Administration or to meet with a Concerned Care Practitioner (CCP) who shall, thereafter, present the facts discovered to the Executive Officers/Administration of the Local Entity.*
2. *The Accuser shall within ten (10) business days, elect either the Executive Officers/Administration or a Concerned Care Practitioner (CCP) for communication purposes. Election shall be in writing to the Executive Officers/Administration. If no election is made, the Executive Officers/Administration will assume that the Officers/Administration and the Concerned Care Practitioner (CCP) shall not be made available. A list of three members from the Concerned Care Practitioners Pool (CCPP) shall be provided to the Accuser from which to select. If a Concerned Care Practitioner (CCP) is elected, the Executive Officers/Administration shall assign the matter to a member of the Concerned Care Practitioners Pool (CCPP). Such assignment shall*

3420, cont.

include a copy of the written submission. It may include a summary of the problem prepared by the Executive Officers/Administration as well.

3. *Once the Accuser makes his or her election, the Accuser shall submit a Submission of the facts supporting the accusation. The Accuser shall be advised that the Submission is not confidential and may be shared with interested parties. The Accuser shall be advised that a Submission is required.*
4. *If a Concerned Care Practitioner (CCP) is elected, the Accuser shall meet with the Concerned Care Practitioner (CCP) to further explain the content of the Submission or answer any questions the Concerned Care Practitioner (CCP) may have. The Concerned Care Practitioner (CCP) will, thereafter report the facts to the Executive Officers/Administration may inquire into additional facts, but shall not contact the Accuser, except through the Concerned Care Practitioner (CCP). Moreover, the Concerned Care Practitioner (CCP) shall not conduct an investigation beyond contact with the Accuser.*
5. *If the Accuser elects to work with the Executive Officers/Administration, The Executive Officers/Administration shall read the Submission and meet with the Accuser. Thereafter, additional investigation may take place where appropriate including following up with the Accuser.*
6. *Once the investigation, if any, is complete, the Executive Officers/Administration will make a determination of finds based on the strength of the facts discovered and the nature of such facts. Any such action, such as employee discipline, shall conform to the relevant policies and processes of the Local Entity.*
7. *The Accuser shall agree to hold the Concerned Care Practitioner (CCP) harmless from any and all liability.*
8. *If the Executive Officers/Administration, after attempting to address the issue of Sexual Misconduct at the Local Entity, believes that the issue remains unresolved, then the Executive Officers/Administration, in its sole discretion may engage a Sexual Ethics Committee (SEC) as set forth in NAD Working Policy E87, beginning with the selection of the organizations Sexual Ethics Pool (SEP) if one has not already been selected.*

Selection of Sexual Ethics Pool (SEP) (E 87 25)

Preliminary Process for Sexual Ethics Committee (SEC) (E 87 30)

1. *Activate the Process*—Upon receiving a report or learning of alleged Sexual Misconduct by an employee, volunteer or endorsed chaplain, the Accused's immediate supervisor or chief administrative officers of the institution or entity involved shall activate the appropriate process as outlined, if other attempts at resolution have not been successful:
 - a. *For allegations, suspicions, or knowledge of current child Sexual Misconduct (abuse)*
 - 1) *Notify the Designated Officers of the report or knowledge; and*
 - 2) *Immediately report all allegations or knowledge of child Sexual Misconduct/abuse to local authorities as necessary to comply with applicable child abuse reporting statutes, and to Adventist Risk Management, Inc. and applicable liability insurance carriers;*

- 2. *Integrity of the Affected Entities—The Designated Officers shall take steps to maintain the integrity of the affected institution or entity and those involved in the dispute. This may include recommending to the disciplinary body that the Accused be placed on administrative leave with pay and without prejudice, or that a Volunteer be prohibited from carrying on his/her volunteer duties. Under such circumstances, the Accused shall not engage in any church-related duties until the investigation has been concluded and findings have been issued. Other prudent courses of action must also be considered.*

(Signature of Accused)

(Signature of Designated Officer/Administrator)

- d. *After meeting with the Accused, the Designated Officers shall review all of the facts and issue a decision (such as in a case where the facts are not disputed by the Accused), or if necessary, begin the process of selecting the five-member Sexual Ethics Committee (SEC).*
5. *Investigative Process Omitted—Should the Designated Officers alone, or in consultation with the organizations' administrative leadership or with the selected Sexual Ethics Committee (SEC) members and the concurrence of a majority of those members, determine that the allegations of the Accuser are of a nature that could be best resolved between the parties, and there is no factual dispute, then the investigative process may be omitted, provided the Accuser, Accused, and the applicable disciplinary body agree. The notification procedure contained in the decision process, and the disciplinary process, shall be followed as necessary. Should this process not be successful, the matter shall be referred back to the Designated Officers, who shall then initiate the investigative process.*

3420, cont.

Investigative Process (E 87 35)

The Sexual Ethics Committee (SEC), meeting as a group only, may be enlisted to investigate the allegations through information and documentation from the Accuser, the Accused, and other appropriate sources. At its discretion, the Sexual Ethics Committee (SEC) may meet with parties and witnesses, receive and consider written documents, photographs, and other relevant materials; consider any court or administrative proceedings, including criminal convictions and pleas; and may determine the manner and form in which such evidence is received. Because these proceedings are administrative in nature, if the Sexual Ethics Committee (SEC) is involved, it shall have complete control over the hearing format including whether cross-examination of parties will be prohibited, and what evidence will be admitted.

1. *Convene Meeting of All Parties—After reviewing the verified written complaint (Submission) of the Accuser and the Response of the Accused, the Sexual Ethics Committee (SEC) may convene a meeting of the parties to gather information to determine whether the factual allegations as set forth in the verified written complaint were more likely to be true than untrue.*
 - a. *The parties may bring other persons who have knowledge of the allegations and who may provide statements under oath. The Sexual Ethics Committee (SEC) may hear and consider the allegations and receive any such additional evidence necessary to support or defeat the verified written complaint. Written statements if requested from either party should have notarized signatures, as provided for in the written complaint and denial.*
 - b. *Members of the Sexual Ethics Committee (SEC) may ask questions as necessary. The Sexual Ethics Committee (SEC) may, upon a determination of good cause, prohibit cross-examination of parties or witnesses. If cross-examination is not allowed, the Sexual Ethics Committee (SEC) may accept written questions from the Accused or Accuser, and the Sexual Ethics Committee (SEC) may question the party(ies) or witness(es) protected from cross-examination.*
2. *Attendance at Meeting of Sexual Ethics Committee (SEC)—Once the Sexual Ethics Committee (SEC) is convened by the Executive Officers/Administration to take jurisdiction over a case, the Sexual Ethics Committee (SEC) members, the Accuser, the Accused, as well as the parents/guardians, or legal representatives of a minor or an incompetent adult, and with permission of the Sexual Ethics Committee (SEC), qualified therapists of the Accuser and/or the Accused, or legal counsel of the Accuser or the Accused, may attend the Sexual Ethics Committee (SEC) meetings. Any other individuals may attend only upon invitation of the Sexual Ethics Committee (SEC), consent of both parties, or while giving testimony or providing other evidence. The Sexual Ethics Committee (SEC) may seek counsel and advice from therapists, attorneys, or any other experts to assist the Sexual Ethics Committee (SEC) in its investigation of the charges or administration of the proceedings.*

3420, cont.

3. *Additional Meetings of Sexual Ethics Committee (SEC)—The Sexual Ethics Committee (SEC) may convene additional meetings as may be necessary to fulfill its duties and responsibilities. Reasonable efforts will be made to provide notice to both the Accuser and the Accused of these meetings.*
4. *Witness Invitation or Recall—The Sexual Ethics Committee (SEC) may invite or recall witnesses on its own initiative or at the request of the Accuser or the Accused as often as is necessary to determine the facts.*
5. *Recording of Sexual Ethics Committee (SEC) Meetings—The Sexual Ethics Committee (SEC) meetings shall not be recorded by videotaping, audiotape recording, or the preparation of a verbatim transcript by a court reporter or stenographer.*
6. *Reporting of Verdict—Upon any criminal disposition adverse to the Accused, whether by verdict or pleas of guilt or no contest, or charges based upon Sexual Misconduct, the Sexual Ethics Committee (SEC) shall presume the allegations involving the disposition substantiated and the Designated Officers shall report the finding to the disciplinary body for appropriate disciplinary action. A finding of not guilty in the criminal court will not of itself affect the process, findings, or disposition under this policy.*
7. *Uncooperative Accuser—If the Accuser at any time chooses not to cooperate, the process shall continue if there appears to be sufficient evidence to believe that an act of Sexual Misconduct may have occurred.*
8. *Resignation of Volunteer—If the Accused Volunteer chooses to resign his/her membership and volunteer position, the Sexual Ethics Committee (SEC) shall consult with and seek the advice of an attorney regarding legal issues concerning continued disciplinary action against the Volunteer.*

Decision Process (E 87 40)

If it is determined that the Sexual Ethics Committee (SEC) needs to hear a case, it shall then determine whether the charges contained in the Accuser's complaint are supported by evidence showing that the charges are more likely than not to be true. Unless otherwise agreed to by the parties in writing, if applicable, the Sexual Ethics (SEC) shall issue a finding within thirty (30) business days from the date of the final hearing.

Sexual Ethics Committee (SEC) Actions—Based upon its conclusion, the Sexual Ethics Committee (SEC) shall take one of the following actions:

1. *If the allegations of Sexual Misconduct are found to be more likely untrue than true, no further investigatory action shall take place, and reasonable efforts shall be made to exonerate the Accused and clear his/her name, including placing the Designated Officers'*

3420, cont.

or the Sexual Ethics Committees' (SEC) findings in the Accused's personnel file, if applicable. These findings may also be placed in the Accuser's records as appropriate. The Sexual Ethics Committee (SEC) and the Designated Officers shall communicate and explain the Sexual Ethics Committee (SEC) findings with the Accuser and the Accused, separately. All entities or organizations which were notified of the initiation of these proceedings shall also be notified of the Sexual Ethics Committee (SEC) findings to the satisfaction of the Sexual Ethics Committee (SEC) in consultation with the Accused.

2. *If the allegations of Sexual Misconduct are found to be more likely true than not, the Sexual Ethics Committee (SEC) shall report its findings to the Designated Officers, who shall relay the findings to the appropriate disciplinary body. Upon request, the Sexual Ethics Committee (SEC) may make its members available to meet with the Discipline Committee. All entities and organizations which were notified of the initiation of these proceedings shall also be notified of the Sexual Ethics Committee (SEC) findings.*

Disciplinary Process (E 87 45)

1. *Factors to Consider—The discipline committee shall consider the following factors in determining the appropriate discipline:*
 - a. *Severity of the offense(s)*
 - b. *Frequency of the offense(s)*
 - c. *Severity of the injury(ies)*
 - d. *Number, age(s), and gender of victim(s)*
 - e. *Attitude of the perpetrator (is he/she contrite?)*
 - f. *Duration of the injury(ies); and*
 - g. *Nature of the relationship between the parties.*
2. *Discipline May Include—Based upon these factors, discipline shall be imposed, and may include one or more of the following:*
 - a. *Educative warning*
 - b. *Written reprimand*
 - c. *Public censure*
 - d. *Mandatory counseling*
 - e. *Suspension and/or*
 - f. *Termination of employment or volunteer relationships*
 - g. *Revocation of endorsement and withdrawal of credentials*
 - h. *Require that the perpetrator reimburse the expenses incurred by the parties or the Sexual Ethics Committee (SEC) or*
 - i. *Any other discipline determined to be appropriate by the Discipline Committee*

3420, cont.

3. *Discipline Committee to Communicate with All Parties—The Discipline Committee or its designated representative(s) will communicate with the Victim(s) and the Perpetrator, separately, to explain the action(s) taken.*
4. *Personnel File Record—If the Perpetrator is an employee of a church entity, the Designated Officers shall ensure that notations have been placed in his/her personnel file that a complaint had been made, and that the findings of fact and the action taken by the Discipline Committee are placed in the personnel file.*
5. *Volunteer Perpetrators—If the Perpetrator is a Volunteer, the findings of fact and any action taken by the Discipline Committee, or the Sexual Ethics Committee (SEC) shall be reported by the Designated Officers to the church entity or organization which appointed him/her as a Volunteer and to the church board and local conference in which he/she holds membership.*
6. *Endorsed Chaplain—If the perpetrator is an endorsed Chaplain, the findings of fact and any action taken by the Discipline Committee or the Sexual Ethics Committee (SEC) shall be reported by the Designated Officers to the Secretary of the North American Division in his role as Chairperson of the Credentials Committee and to the Chairperson of the North American Division Adventist Chaplaincy Ministries Committee.*

Responses (E 87 50)

Once the discipline committee has made its determination and decided upon the disciplinary action, the following steps shall be taken:

1. *Response to the Accused—The following appropriate responses to the Accused may take place:*
 - a. *Implement Discipline Committee action.*
 - b. *Remove the Accused employee from service, if applicable.*
 - c. *Assuming continuation of employment is possible, require therapeutic counseling and/or treatment to be utilized in combination with any of the responses listed above. A therapist who is qualified to deal with Sexual Misconduct, and who is sensitive to issues of professional ethics, should be selected by the Accused and approved by the Designated Officers. Assistance shall be made available for the spouse and family where needed and approved. The therapy requirement shall be clearly communicated and monitored as appropriate.*
 - d. *For minor offenses where it is concluded that the Accused is sufficiently capable of effective service again, possible reinstatement of the Accused shall be dependent upon the recommendation(s) of the therapist, supervisor, and members of the Discipline Committee.*
 - e. *Limit the service of the Accused during the rehabilitation process and appoint a trained supervisor to monitor his/her duties. Any such rehabilitation plan needs to be approved by a qualified therapist to protect other potential Victims.*

3420, cont.

2. *Response to the Accuser(s)—*
 - a. *Advise the Accuser of the Discipline Committee action.*
 - b. *A list of qualified therapists shall be provided to the Accuser(s) to be utilized at his/her/their choice. While this does not imply financial responsibility on the part of the organization, financial support for this purpose may be offered without implying guilt.*

3. *Response to the Congregation, Institution, or Church-related Entity—*
 - a. *The Designated Officers shall relate the results of the hearing process and the action of the Discipline Committee to the conference, church, institution, or church-related entity to communicate the results of the hearing process. At this meeting special attention shall be given to the disciplinary action taken and its implications.*
 - b. *A trained resource person shall be made available to assist the institution or congregation in whatever was necessary to address their concerns and to bring healing.*

4. *Response in Situations Involving Minors—*
 - a. *In the event that a complaint involves allegations of Sexual Misconduct with a minor, the person who receives the complaint is required by law to:*
 - 1) *Immediately report the suspicion of sexual abuse against a minor to the local law enforcement authority (i.e., district attorney, child protection services, etc.);*
 - 2) *Proceed with the investigation outlined in this policy.*
 - b. *If charges are filed involving criminal acts against a minor and the Accused is prosecuted, two members of the Sexual Ethics Committee (SEC) may be assigned to monitor the trial proceedings and report regularly to the Sexual Ethics Committee (SEC).*
 - c. *If the Accused is convicted in court of criminal charges against a minor, the Sexual Ethics Committee (SEC) or the Designated Officers shall recommend to the Discipline Committee removal from denominational employment or service.*
 - d. *If the complainant does not choose to pursue a formal written complaint with the conference, the Designated Officers shall continue the investigation if there appears to be sufficient evidence that Sexual Misconduct has occurred such as to cause concern for the well-being of other minors.*

Appeals (E 87 55)

Because sexual misconduct policies are developed to make the process as fair and impartial as possible, the findings of the Sexual Ethics Committee (SEC) are considered final, resulting in no further recourse through appeals through the church.

3420, cont.

Education and Prevention (E87 60)

The North American Division, in partnership with Adventist Risk Management, the General Conference Human Resources, and the General Conference Office of General Counsel, seeks to educate employees and volunteers that Sexual Misconduct is disapproved by the Church and violates the law of the land. To carry out this educational goal, the North American Division publishes this policy for its office and field, institutions, boards, and church-related entities and affiliates; develops appropriate instructions/standards for moral conduct and the prevention of Sexual Misconduct; and endeavors to inform all employees, volunteers, and members of the process of bringing a complaint of Sexual Misconduct.

The North American Division encourages the establishment of education and prevention programs in churches, schools, and other institutions. Lists containing names of employee and lay resource persons who have indicated that they can provide seminars, sermons, and educational programs may be obtained from the Office of Human Relations of the North American Division.

3422 Harassment in Church Relationships Involving Denominational Employees and Approved Volunteers (E 84)

The Southwestern Union Conference fully adheres to the *North American Division Working Policy* regarding sexual harassment as found in Section E84 as shown below.

Working Environment (E 84 05)

The North American Division values the dignity of all human beings as children of God and recognizes its responsibility to all employees to maintain a working environment free from harassment. It endeavors to achieve this through educating employees that harassment violates the law and will not be tolerated by the Division. The North American Division also endeavors to prevent harassment by publishing this policy, by developing appropriate sanctions for misconduct, and by informing all employees of their right to complain of harassment.

1. *To maintain a work environment free of harassment and assist in preventing inappropriate workplace conduct, the North American Division expects each NAD organization to take the following actions:*
 - A. *Develop a harassment policy and complaint procedure;*
 - B. *Designate an officer to serve as the individual to whom complaints of harassment can be made in addition to an employee's department director;*
 - C. *Supply each employee with a copy of the harassment policy and complaint procedure; and*

3422, cont.

- D. *Have each employee acknowledge in writing the receipt of the policy and complaint procedure, which will be maintained in the employee's personnel file.*

Personal Conduct (E 84 10)

Employees of North American Division organizations are to exemplify the Christ-like life and shall avoid all appearance of wrongdoing. They should not engage in behavior that is harmful to themselves or others or that casts a shadow on their dedication to the Christian way of life. Personal attire, posters, banners, bumper stickers, tags, flags, and other symbols whose message, historically or currently, is, or could reasonable be construed to be, one of prejudice, discrimination, or that is inflammatory, must not be displayed anywhere on the premises of the North American Division or its organizations, or while representing the North American Division in any capacity. Employees should respect and uplift one another. Employees should never be placed in a position of embarrassment, disrespected or harassed because of their gender, race, color, national origin, age or disability. To do so would be a violation of God's law and civil laws protecting human rights and governing work place conduct.

Sexual Harassment (E 84 15)

Sexual harassment is a form of harassment that involves unwelcomed sexual advances, requests for sexual favors or other verbal, written or physical conduct of a sexual nature when:

- 1. Submission to each conduct is made either explicitly or implicitly a term or condition of an individual's employment; or*
- 2. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting an individual; or*
- 3. Such conduct has the purpose or effect or unreasonably interfering with an individual's work performance or creates an intimidating, hostile or offensive working environment.*

Improper Conduct (E 84 20)

Improper conduct by the employer, co-workers and, in some instances, non-employees includes, but is not limited to:

- 1. Any subtle or other pressure for sexual favors or activity, including any suggestion that an applicant's or employee's giving in to or rejecting sexual advances will have an effect on that person's employment or terms of employment.*
- 2. Unwelcome sexual flirtation or propositions.*

3422, cont.

3. *Unnecessary or inappropriate touching of a sexual or abusive nature (e.g., patting pinching, hugging, repeated brushing against another person's body, etc.).*
4. *Displays of sexually suggestive pictures, drawings, cartoons, or objects.*
5. *Threats or demands for sexual favors.*
6. *Unwelcomed or derogatory statements related to gender, race, color, national origin, age or disability (for example, kidding, teasing, degrading jokes or offensive comments or tricks).*
7. *Demeaning or degrading comments about an individual's appearance.*
8. *Denying an employee the opportunity to participate in training or education on account of gender, race, color, national origin, age or disability.*
9. *Limiting opportunities for promotion, transfer or advancement on account of gender, race, color, national origin, age or disability.*
10. *Requiring a protected employee to perform more difficult tasks or less desirable work assignments in order to force them to retire or resign from employment.*

Reporting Incidents (E 84 25)

Employees who believe that they have been harassed should immediately take the following steps:

1. *Make it clear that such conduct is offensive and should be stopped immediately; and*

School personnel are responsible for the reasonable care and safety of students while at school and during all school functions, on or off campus. This includes the requirement for teachers to be present at school a minimum of 30 minutes before and after school hours and until every child has gone or been provided for by the supervision of other authorized individuals.

3616 Child Abuse Reporting

Child abuse is a criminal offense and must be dealt with as such. The appropriate authorities must be contacted immediately when child abuse is suspected. By law teachers and school administrators are mandated reporters. Be aware of and follow state guidelines for reporting.

Corporal punishment is not to be used as a disciplinary measure in the Southwestern Union Conference educational system. Corporal punishment includes but is not limited to spanking, pinching, pulling hair, striking, slapping, thumping, and squeezing. A hands-off policy for punishment is expected of all personnel.

3620 Teaching Load

1. Elementary and Junior Academies

Instructional personnel will be assigned responsibilities based on professional preparation, experience, personal qualifications, and needs of the school.

- a. The maximum number of students for a teacher in a Kindergarten classroom should not exceed 20.
- b. The maximum number of students for a teacher in a single grade (excluding Kindergarten) should not exceed 30. It is understood that 30 students would be too many for a teacher in grades 1 & 2.
- c. The maximum number of students for a teacher with two grade levels should not exceed 25.
- d. The maximum number of students for a teacher with three or four grade levels should not exceed 20.
- e. The maximum number of students for a teacher with five or six grade levels should not exceed 15.

If the teacher's load exceeds the maximum as outlined above, assistance should be given either by a part-time certificated teacher or by a teacher assistant. Any deviation must be approved by the local conference office of education.

3620, cont.

2. Teacher Load – Secondary

- A. The maximum teaching load for full-time staff members is six subject preparations per day and/or 750 students per week. One preparation period per day is recommended. Supervisory or co-curricular duties will be assigned by the school administrator as part of the teacher's professional responsibilities. Apply the following discount in determining total number of students instructed by a teacher.
1. Compute classes in physical education at one-half of their actual enrollment.
 2. Compute classes in music at one-half of their enrollment.
 3. Count each study hall period as 15 students, regardless of the number in the session
- B. In assessing teacher load, the following four factors shall be considered:
1. Number of classes taught daily.
 2. Number of students taught daily.
 3. Number of preparations required daily.
 4. Extra-activity assignments.
- C. Extra class activities should be carefully weighed in determining teacher load. Teacher load equivalency shall be calculated as follows:
- | | |
|-------------------------------------------|-----------|
| 1. One solid plus lab | 1 ½ units |
| 2. Classes without additional preparation | ½ unit |
| 3. Band and Choir | ½ unit |
| 4. Ten private lessons | 1 unit |
| 5. P.E. | ½ unit |
- D. In order to secure optimum benefits in secondary education, it is recommended that individual class size should not exceed 30 students except where the content and methods of instruction permit effective work with larger groups.

3621 Administrative Load

1. Academy Principal

When the academy has less than 75 students enrolled, the principal should not teach more than three subjects. When there are 75-100 students, he/she should not teach more than two subjects. When there are 100-150 students, he/she should not teach more than one subject.

Principals of elementary schools should not be required to carry more than a $\frac{3}{4}$ teaching load if there are 75-100 students and/or four other teachers; $\frac{1}{2}$ teaching load if there are 100-150 students and/or six other teachers; $\frac{1}{4}$ teaching load if there are 150 students and/or eight other teachers.

3622 Employee's Records

The secretary of the conference and the office of education shall be responsible for the maintenance and safekeeping of accurate and up-to-date service records of all educational personnel. Transcripts shall be kept on file in the Union Office of Education. When an employee transfers, his service record shall be forwarded to the new employing organization upon receipt of a written request from that organization.

In the case of personnel records, only the teacher, principal, those assigned the responsibility of keeping records, the chairman of the conference Board of Education, K-12, or academy board, and the conference superintendent of schools and his associates have the right of access to the teacher's personnel file. The personnel file should be maintained in a locked, fire-resistant vault. No student shall handle or have access to personnel files.

Information from the personnel record may be released by the principal to the appropriate persons in connection with emergencies, i.e. protecting the health and safety of that employee or other persons. The conference or academy reserves the right to release from the personnel record the following information: employee's name, address, telephone listing, participation in professional activities, dates of employment, degrees received, institutions attended, types and areas of certification, instructional areas, birth date, social security number, specific courses taken, teaching load, employment agreement, extracurricular assignments, and salary.

The only exception to this policy shall be if a local board, academy board, and/or conference K-12 board of education, is considering the termination of employment due to teaching performance. In such cases, the conference K-12 board of education may review teacher evaluations and other correspondence related to teacher performance.

3624 Supervision of Instruction

Each teacher in the Southwestern Union shall have the benefit of a strong program of supervision that shall focus on improvement of instruction. The supervision program shall be a coordinated effort planned by the local school principal, the conference Office of Education and the Southwestern Union Conference Office of Education.

This program shall consist of professional growth, inservice activities, individual help, and evaluation of instruction.

Teachers will be offered employment agreements on either the 100% or the 95% plan in harmony with the Southwestern Union employment policy and according to the needs of the school and the conference.

1. The contract year for teachers is July 1 through June 30.
2. When a teacher is employed for less than the full contract period, the percent of salary will equal the percent of time worked.

A. 12-month Plan

Such a teacher will be given a maximum of three years to complete the certification requirements. If the work is not completed in three years, then the wages will be adjusted downward one increment per year of teaching until certification is achieved.

2. A teacher with a BS/BA degree who has not qualified for Basic, Standard, or Professional certification will be on Step-I of the salary schedule.
3. A teacher who does not have at least a bachelor's degree will be on Step-II of the salary schedule.
4. Although a final decision is left to the employing organization, it is recommended that experience credit be given for all years of teaching, both public and private.
5. Teachers who allow denominational certification to lapse will have their salary reduced one step on the salary schedule each year they are employed without a valid denominational certificate.
6. A principal of an elementary school or junior academy may receive an additional 2% and a head teacher of a one-, two-, or three-teacher school, an additional 1%. The maximum for anyone is Step IX of the salary schedule.

3704, cont.

7. The maximum for a senior academy principal with a denominational administrator's certificate is Step IX.

3712 Retirement Plan Percentages Contributed by Schools

The Retirement Plan is funded by contributions from the participating organizations and optional employee contributions. The rates may be changed by the NAD Retirement Board as necessary in order to meet the demands on the funds. Organizations that base their contributions on employee remuneration shall include employees, as required by current NAD Working Policy. Student labor is exempt from participation in the Retirement Plan.

Academies are to contribute into the Retirement Plan a percentage in harmony with North American Division policy. Remuneration of teachers paid through subsidies or through direct appropriations shall be included when computing the amount to be paid to the plan. Elementary schools and junior academies are excluded from the provisions of this regulation.

3714 Education Workshops

The financing of educational workshops approved by the Southwestern Union Conference and with participants appointed by the Southwestern Union Office of Education in counsel with the superintendents of schools shall be on the following basis:

1. Reportable expenses and remuneration for participating classroom teachers:
 - A. The regular mileage policy followed within the Southwestern Union Conference or one coach air fare (21-day advance purchase) to and from his destination, whichever is less.

3714, cont.

 - C. The allowance applies to the teacher only and not to members of his/her family.
 - D. Twelve month employees engaged in summer workshops may be paid a stipend only if they are taking vacation time.
 - E. For summer workshops, teachers on the 10-month plan may be paid a weekly stipend in harmony with current NAD policy. (The total yearly salary including the stipend may not exceed the 12-month plan.)
2. Plan for sharing:

The North American Division will pay the per diem/meal expense, room expense, transportation, and weekly stipend for all personnel other than union conference personnel.

The Southwestern Union Conference and the local conferences shall share expenses as voted in the workshop plan.

3722 Educator Remuneration

Most teachers are issued an employment agreement based on forty-four weeks of service with 91-95% of a full year's salary paid in installments July through June. Some teachers and administrative personnel may be issued a 52-week agreement (100% plan) at the discretion of the employing organization.

For information concerning the current salary package, see the Southwestern Union Salary Schedule and/or the local conference salary policy.

3724 Salary Adjustment Cause by Certification Status Changed

Certification renewal work (academic or non-academic) should be submitted to the Southwestern Union Conference as soon as possible after it is completed. Non-academic hours must be completed within one year of the date on which they are submitted to the Education Department in order for credit to be issued. Academic renewal credit will be issued if it has been completed within the five year period prior to issuing the certificate.

It is the responsibility of the teacher to request that official transcripts of credits earned toward certification be sent to the Southwestern Union Office of Education.

The Southwestern Union Office of Education will notify the conference office of education of any changes in certification status. Salaries will be adjusted according to the policies of each conference.

3726 Provisions for Special Leaves

Provision is made for certain leaves for certificated personnel. These include the following:

3. Personal Leaves

Employees may be granted up to three personal days per year according to local conference policy. These days may be counted as part of the 10 sick days allowance. Substitute teacher pay may be financed the same as sick days. Arrangements should be made with the principal and/or board chairman five days prior to the request.

4. Illness (Sick Leave)

Employees are allowed to be absent ten (10) school days during a contract year due to illness, without reduction in pay. However, after accrual of ten absences due to illness, the teacher may be charged the expenses incurred for hiring a substitute teacher. Denominational organizations often find it necessary to ask employees to relocate so that the best interests of the denomination might be served. Assistance may be granted as follows:

1. The counselor shall be chosen by the employee from an approved list provided by the organization.

All education employees should give evidence that they are good stewards of their finances by:

1. Refraining from all business enterprises that will interfere with the work to which they are called.

 - 1) Two weeks annual vacation after one full year of service.
 - 2) Three weeks annual vacation after four full years of service

4000-4999 Curriculum

4000-4099 General Provisions of Curriculum K-12

4002 Definition of Curriculum

For the Seventh-day Adventist system of education, curriculum is defined as all learning opportunities, both formal and informal, planned and guided cooperatively by the home, school, and church.

Curriculum at all levels reflects: the Seventh-day Adventist philosophy and objectives of Christian education; the awareness of the principles of human growth and development, the process of encouraging, guiding, and sustaining the learner as he seeks to understand himself, and the relationship of mankind to fellow human beings and the Creator.

It is the responsibility of everyone involved in the educational process to endeavor to make each aspect of the curriculum consistent with the goals of Christian education. If administrators and teachers are dedicated to the principle of respect for the uniqueness and worth of each individual, and to the presentation of the truth about God, then materials, methods and content will be flexibly designed in an effort to promote the divergent, specialized potential of every learner.

Broad areas of curriculum shall include religion, communication skills, physical and life sciences, mathematics, social studies, health, physical education, practical or applied arts, and fine arts within the context and relationships of character building—spiritual, intellectual, physical, social, and career development.

Curriculum materials prepared under the sponsorship of and adopted by the North American Division and Southwestern Union Conference Offices of Education are basic to the structure for learning experiences, K-12 and are to be used in all schools in the system unless specific written permission is granted by the conference or Union Office of Education.

4010 General Admission Requirement (FEA 05 25)

The Seventh-day Adventist church in all of its church schools, admits students of any race to all the rights, privileges, programs, and activities generally accorded or made available to students at its schools, and makes no discrimination on the basis of race, creed, color, ethnic background, country of origin, or gender in administration of education policies, applications for admission, scholarship or loan programs, and extracurricular programs.

Seventh-day Adventist schools are designed for the young people of the Seventh-day Adventist Church who enroll for the purpose of doing earnest, faithful work, and who have a desire to develop a Christian character.

4010, cont.

It is understood that every student who presents himself for admission to the school thereby pledges:

1. To observe willingly all its regulations
2. To uphold the Christian principles upon which the school is operated
3. To perform to the best of his ability all school duties assigned

It is also understood that should he break his pledge, he forfeits his right to attend the school. If he is retained in the school, it is at the discretion of the faculty and of the school board.

Each conference and academy shall follow the state requirements for medical examination, and/or immunization.

Cumulative records shall be requested from the previous school for each transfer student. Students will be accepted on a probationary basis until such records are received. Cumulative records should include permanent record card(s), test scores, reading record card, and health records including immunization and other pertinent information.

A student who is applying for admission but who has an unpaid financial obligation at the school previously attended must make satisfactory arrangements for payment of that obligation before he/she may be enrolled. Any school enrolling such a student shall either ensure collection of the obligation or pay the obligation within 90 days of enrolling the student.

Seventh-day Adventist schools are operated primarily for children of Seventh-day Adventist parents or sponsors. It is possible under certain conditions to accept students who are not Seventh-day Adventists or whose parents or sponsors are not Seventh-day Adventist. Factors to consider in accepting these students include: (See 1710.)

1. Adequacy of school facilities and staff.
2. Character, mental achievement, attitude, and home background of the applicant and willingness of the parent to have their children introduced to Seventh-day Adventist philosophy.

The school administration is to keep informed of the state laws relating to compulsory school attendance and reporting requirements for students who have excessive absences or who disenroll from the school during the school year.

4015 Exceptional Students

Exceptional students should apply to those Adventist schools who are able to make special provision to meet their needs. Schools which are unable to make provision should exercise caution in accepting atypical students and recommend programs which can meet the needs of these students.

4020 Week of Spiritual Emphasis

A week of Spiritual Emphasis is to be conducted during each semester.

4022 Gift of Prophecy Emphasis

Each teacher is to utilize the materials which have been prepared by the Southwestern Union Office of Education in cooperation with the Ellen G. White Estate to acquaint the students with the work and role of the Gift of Prophecy in the Seventh-day Adventist Church.

4024 Student Prayer Bands

Time should be provided for regularly organized prayer bands as an integral part of the school program.

4026 Chapel Services

Chapel services are to be planned to create a positive spiritual atmosphere. All assembly programs are to be opened with a devotional period, regularly involving the local pastor(s).

4028 Worship Periods

Each school day is to begin with a devotional period, regularly involving the local pastor(s).

4030 Baptismal Class

A baptismal class should be organized each year in cooperation with the local pastor to give students the opportunity to review the beliefs of the Seventh-day Adventist Church.

4032 Personal and Spiritual Guidance of Students

As a part of the school's program, all members of the teaching staff are to take time for spiritual guidance of individual students.

4034 Patriotic Activities

Each school is to include patriotic activities as an integral part of the school program. This plan includes the flag salute, singing of the national anthem at appropriate times, and the commemoration of national holidays.

4036 Cultural Diversity and the School Program

Appreciation for various cultures with emphasis on the brotherhood of man is to be included in the school program.

4038 Home Visitation

Effective student counseling by teachers can be enhanced by an "every student" home visitation program which will provide opportunities to become better acquainted with both students and their families.

4040 Student Organizations

All student organizations and student conducted cultural, social, and recreational activities shall be under direct supervision of the school staff. Each student organization must have a faculty sponsor.

4042 School Sponsored Public Functions

Public functions such as student rallies, class night, graduation, and all other activities for which the school bears direct or indirect responsibility shall:

1. Be conducted in accordance with recognized principles of correct decorum.
2. Conform to the standards and principles of Seventh-day Adventist schools.
3. Be free from all coarse and objectionable features in subject and in presentation.
4. Avoid excessive use of regular school time.

4044 Interschool Sports

General Principles

1. Christians should function with the highest of motives in their quest for athletic excellence.
2. Occasional friendship games or matches involving institutions at joint social gatherings may be desirable as voted by the local school board.
3. All sports activities shall be carefully planned to:
 - A. Exhibit the highest principles of Christian sportsmanship.
 - B. Avoid interference with the spiritual, the academic, or the cultural aspects of the school program.
 - C. Properly represent the school, the Church, and the Master Teacher.
4. All school sports activities shall be planned in harmony with guidelines as voted by the local school board.
5. All people have talents—some more, some less. God expects faithfulness in service regardless of talents or pay (Matt. 20:1-6). Even though talents are distributed differently, God expects individuals to develop what they have to the best of their ability; and they will be given responsibility according to their faithfulness. The scriptures remind us, “Whatever you are doing, put your whole heart into it, as if you were doing it for the Lord and not for men, knowing that there is a Master who will give you your heritage as a reward for your service.” (Col. 3:23, NEB).

4046 Annual School Calendar

The school calendar shall consist of a minimum of 180 school days which must include:

1. A minimum of 176 in-class teaching days (minimum of four hours instructional time or as stipulated by the state for minimum days).
2. Additional days as approved by the conference Board of Education for such activities as school or conference inservice and professional growth and parent-teacher conferences.

State school calendar requirements must be satisfied by all schools in the Southwestern Union.

Minimum days are to be scheduled with the conference office of education. Modifications in the conference adopted school calendar must be approved in writing by the conference superintendent of schools. See 4168.

4047 Four-Day School Week

In unusual situations, a school may wish to consider a four-day school week. Application forms, which include required surveys, may be obtained from the local conference. Initial approval in writing from the local conference K-12 board must be granted before implementation. Before granting approval, special consideration shall be given to 1) state requirements, 2) the effects of the longer school day for students in primary grades, and 3) the overall effect on student scholastic achievement. The local conference office of Education may prepare modified job descriptions for teachers teaching in schools with four-day week instructional programs. Schools adopting the four-day school week shall be required to plan for 1,068 hours of actual school pupil contact time. Some allowance in the 1,068 hour requirement for professional growth activities may be granted by the local conference, but the allowance shall not exceed a total of 30 hours. The local conference board of education shall annually review schools operating a four-day school week in order to extend or deny approval for the next school year.

4048 Procedure for Establishing Innovative Programs, K-12

A written request must be submitted by the school to the superintendent of schools for authorization to pursue innovative programs K-10, and to the Southwestern Union Director of Education for secondary schools.

The written request must include definitive plans outlining basic factors such as:

1. The rationale
2. Objectives
3. Materials
4. Budget
5. Time factor (length of trial period)
6. Description of course or activity
7. Evaluation plans

Written authorization from the superintendent of schools must be received before starting the program K-10, and to the Southwestern Union Director of Education for secondary schools.

4050 Grade Reporting Periods

The nine-week reporting period is to be followed.

4056 Teacher Supervision Responsibilities

1. Elementary school, junior academy, and day senior academy

4056, cont.

- A. The teacher shall arrive at school not less than 30 minutes prior to the opening of the school day and is to remain at least 30 minutes following the close of the school day.
- B. Students are to be under appropriate adult supervision at all times while at school or at school functions.
- C. Teachers are not to leave the school campus during the school day unless arrangements are made with the administrator. In one-teacher schools these arrangements are to be made with the school board chairperson.

2. Boarding academy

Policies regarding teacher supervision on a boarding academy campus are to be adopted and implemented so as to ensure reasonable supervision for the total school program.

4062 Student Permanent Records (See 1732, 2410)

A permanent record card is to be established for each student. The record is to include name, date of birth, sex, scholarship, and attendance. The permanent record card is to be kept indefinitely while other information that may have been placed in a cumulative file for the student may be destroyed after five years non-attendance. The individual permanent record is to be available only to authorized personnel, the parents, and the student.

The school records used in elementary schools and junior academies is are to be kept by the conference office of education, including those of academy associated elementary schools. The permanent records of senior academy students will be kept by the respective academy. Records of discontinued secondary schools are to be transferred to the Southwestern Union Conference Office of Education. Records of discontinued elementary schools and junior academies are to be transferred to the local conference office of education.

4068 Parent's Right of Access to Student Permanent Records and Record Transfer (See 1732)

Student records should contain only the factual information necessary for the process of education. Cumulative folders must be available for review by a student (and his parents if the student is under 18 years of age), but must not be accessible to unauthorized individuals. Copies of records may be available at a nominal charge.

Official records will be forwarded to another school system or prospective employer at the written request of the student or his parents (if the student is under 18 years of age).

Records pertaining to a student's mental health containing entries made under the direction of the student's physician should be kept separate from academic records. These records should be

4068, cont.

released only at the student's (or the parents' if the student is under 18 years of age) written request.

4100-4199 Elementary School Curriculum

4104 Subject Areas

The adopted course of study for grades K-8 shall include the following areas:

1. Bible/Religion
2. Communication/Language Arts
3. Music
4. Keyboarding
5. Mathematics
6. Physical Education
7. Practical Arts/Computer Science
8. Science and Health
9. Social Studies
10. Art

The content and textbook to use for each area is outlined in the latest curriculum guide/standards and *Southwestern Union Textbook List* (available online at the SWUC website under education).

4106 Small School Correlation Guides

A variety of small school correlation guides may be used in small schools.

4108 Kindergarten (one year before the First Grade)

Seventh-day Adventists believe that the lessons learned by a child during the first seven years of his/her life have more to do with the formation of character than all it will learn thereafter. (*Child Guidance*, p. 193) During this period, "the field or garden is the best schoolroom, the mother the best teacher and nature the best lesson book." (*Education*, p. 208)

So great is this sacred responsibility of parents (*Education*, p. 276) that they are counseled to "be careful how you relinquish the government of your children to other," since "no one can properly relieve you of your God-given responsibility." (*Child Guidance*, p. 288)

Present-day home conditions and state compulsory school attendance laws frequently interfere with this ideal, with the result that some children are sent to school at an age earlier than is

4108, cont.

recommended. Consequently, the church has a special responsibility to support the work of the parents by taking “special care of the lambs of the flock, exerting every influence . . . to win the love of the children and bind them to the truth.” (*Adventist Home*, pp. 358-359)

For this purpose the kindergarten program with its unstructured emphasis on the development of physical skills and spiritual values, forms a desirable part of the education program of the Southwestern Union Conference. (See *Selected Messages*, Vol. 2, pp. 436-437)

When a conference-authorized program of kindergarten education is adopted, it shall become an integral part of the Office of Education of the conference, and shall be fostered, controlled, and financed in the same way as the regular elementary education program.

Seen as an extension of the Christian home, the kindergarten program shall provide opportunities for children to:

1. Strengthen habits such as reverence, respect, obedience, self-control, responsibility, etc.
2. Develop motor and perceptual skills.

Standards of certification for kindergarten teachers have been established by the North American Division Office of Education (for details see the current edition of the *Certification Requirements, K-12* manual).

For standards for kindergarten facilities, equipment and instruction see Supplement A.

4110 School Entrance

To be eligible for admission, children must be physically, mentally, emotionally, and socially mature to carry work at the prescribed level.

1. School entrance age

Prior to accepting any applicant, the following age criteria must be met:

- A. Pre-kindergarten children must be at least four (4) years of age by September 1 of the current school year.
- B. Kindergarten children must be at least five (5) years of age by September 1 of the current school year.
- C. First grade children must be at least six (6) years of age by September 1 of the current school year.

4110, cont.

2. Readiness

Readiness is a basic factor in accepting a child for the first time into the formal school program. Readiness varies with the individual child and is to be determined by interview, observation, and, occasionally, standardized tests results.

Any case consideration for exception must receive prior approval by the local conference office of education or the local conference board of education.

4114 Eighth Grade Completion Requirements

A passing grade should be achieved in each subject area listed for the completion of the eighth grade: (For exception see 4130.)

1. Bible/Religion
2. Mathematics
3. Language Arts (English, Handwriting, Spelling)
4. Reading
5. Physical Education
6. Science-Health
7. Social Studies
8. Music, Art
9. Computer Education (Keyboarding, Computer Applications)

In addition to the subjects listed above, students must complete any additional courses specified by state law.

4116 Graduation Honors

The designations, valedictorian and salutatorian, of a graduating class are not recommended. Graduation honors are to be based on criteria developed by the faculty and approved by the school board.

4118 Appropriate Academic Placement

Appropriate academic placement of the learner is a fundamental principle of education. The following factors are to be considered in grade or level placement:

1. Chronological age
2. Emotional, physical, and social development

4118, cont.

3. Scholastic achievement as determined by:
 - A. Standard achievement test scores
 - B. Teacher observation of the student's ability to reason and to express ideas logically
 - C. Teacher evaluation of academic progress
4. Prior school performance as evidenced by cumulative records, report cards, and conversations with personnel of the previous school attended.

4120 Enrichment and Acceleration of Students

Seldom does a child benefit by advancing more than one grade per year. When acceleration occurs, the student may miss valuable steps in his development. He frequently does not have the maturity and experience to do the work and establish the necessary social relationships for the next grade and may display academic and social maladjustment. Therefore, it is recommended that a teacher provide enrichment rather than acceleration. This enrichment may be by hobbies, research on related subjects, crafts, art and music, and additional subjects taken by use of current technology.

When the following factors indicate need for advancement, the teacher and superintendent may work out a plan whereby a child, over a period of time, may make up a year's work by taking a subject or two of the next grade while continuing the work of the present grade:

1. Personal work habits and attitudes
2. Physical development and health
3. Social adjustment
4. Achievement in the basic skills as determined by achievement tests and observation of the teacher
5. Age
6. Attitude of parents

Because of alternation patterns in the curriculum, it is recommended that acceleration be completed by the end of the fourth grade school year.

In cases where the parent makes a written request, the following criteria are to be followed:

1. The student is expected to have a score which places him at the 90th percentile or above in each area of the union approved standardized achievement test.
2. The student must demonstrate satisfactory evidence of academic, emotional, and social readiness for advanced placement to the school staff and to the parents.

4120, cont.

3. Prior written requests for advancement of the student in elementary education (i.e. two years in one, or three years in two) must be submitted to the conference office of education. Written approval from the office of education must be on file at the school.
4. The student must maintain an average or above level of achievement on the accelerated program.
5. The content areas for every grade must be covered.

4124 Retention of Students

Consideration to retain the student at a given level involves counseling with the student and the parents early in the third quarter. A written report, signed by teacher and parent, must be mailed to the superintendent following each conference.

No student is to be retained for more than two years during the elementary school years. All efforts are to be made to assist the student. The final decision to retain a student is to be reached cooperatively, and the superintendent must be consulted. Final notification must reach the local conference office of education by April 1.

4128 Eighth Grade Diploma

Diplomas are to be issued to all students who satisfactorily complete the subjects outlined for grade 8. (See 4114.) The conference office of education issues the eighth grade diplomas upon request of the teacher or principal. The superintendent is to sign the diploma before sending it to the principal/head teacher.

4130 Certificate of Completion

A certificate of completion may be issued to students whose work does not warrant a regular eighth grade diploma.

Evaluation, Recording, and Reporting of Pupil Progress of Elementary School Students

4132 Pupil Progress Reports

Elementary schools are to use the student progress reports approved by the conference office of education. Through these reports and other recommended approaches, information is to be

4132, cont.

provided regarding the student's subject-area progress, as well as attendance, citizenship, social relationships, and health.

The student progress reports are to be distributed at the close of each nine-week period.

4134 Parent-Teacher Conference

The school is to schedule a minimum of one parent-teacher conference for each student in grade K-8 each school year. Among the purposes of the parent-teacher conferences are the following:

1. To report the progress of the student in the various aspects of his school experience.
2. To gain insights from the parents which may assist the school in furthering the progress of the student.

4136 Standardized Achievement Tests

Each school is to use the adopted standardized achievement tests provided by the conference office of education. The tests are to be given on the dates specified on the annual calendar.

4138 School Register

Each teacher, K-10, is required to maintain an up-to-date *School Register* in an electronic format.

The *School's Register* is a legal document in which is recorded the names of students, birthdates, scholarship, attendance, and other information which identifies students and parents. It is the permanent record for elementary schools and junior academies. The *School's Register* information shall be sent to the conference office of education for permanent filing at the end of the school year.

4140 Individual Reading Record

An individual reading record supplied by the conference office of education is to be maintained for each student in grades one through eight.

4142 Tutoring

Arrangements for summer school tutoring are to be recorded in the students cumulative folder and are to be made with the school administrator.

A teacher is not to tutor a child who is in classroom for pay during the school year.

4144 Student Attendance Records – Elementary

An attendance record for each student must be maintained by the elementary school and recorded in the school register.

The individual student attendance record must indicate all half- and full-day absences from school for each day that school is in session.

The attendance record is to be maintained as a part of the student permanent record.

Elementary School Library and Instructional Media Materials

4150 Library and/or Instructional Media Center

Each school will have a media center that provides a collection of appropriate instructional materials selected, organized, and furnished for a service to students and teachers. A regular schedule of school evaluations is to be administered by the conference office of education. The current edition of the *Evaluative Criteria for Seventh-day Adventist Schools* is the instrument to be used for the self-study.

4164 Daily Class Schedule

Each teacher is to prepare and display a daily class schedule. A copy of the schedule is to be sent to the conference office of education with the opening report.

The daily schedule should be firm enough to provide a pattern for the day's activities and yet flexible enough to allow for unexpected instructional needs and opportunities.

4166 Weekly Time Requirements

The elementary school instructional schedule is to meet a minimum of 30 hours weekly (excluding lunch period) unless state regulations exceed these requirements in which case the state requirements will supersede.

A teacher may temporarily suspend a student from class but suspension from school is to be done only by the principal, the head teacher, or, in a one-teacher school, by the teacher in consultation with the board chairperson.

A student may be suspended for repeated offenses when other procedures have not been effective. Evidence of prior corrective measures and parental notification should be documented.

In the case of a serious overt act or violation of school regulations, the principal may suspend a student from school even though there has been no prior serious misbehavior. The suspension period is not to exceed two weeks.

5226 Dismissal of Students

The school board is the ultimate authority in the dismissal or expulsion of a student upon the recommendation of the principal, head teacher, or disciplinary committee. As a general rule, dismissal or expulsion is used only when other means of correction fail to effect a change in conduct or the parent will not voluntarily withdraw the student.

5900 The Alumni Association

5902 Establishment of the Alumni Association

An Alumni Association should be established everywhere there is a church school that has a history of former students who have completed their education at that school. Its purpose is:

1. To offer fellowship to former students and graduates of the school
2. To support Seventh-day education for future generations

5906 The Alumni Association shall not be a separate or independent organization if the school name is used in any form.

5910 Alumni Funds

Alumni Association funds are to be channeled through the school treasurer, kept as a separate account, and audited in harmony with denominational policy.

6000-6100 Kindergarten Guidelines

The young child should be immersed in a rich experiential environment, free from formal schooling and in the primary care of his mother.

Unfortunately, this ideal is no longer an option for many families. Increasing numbers of SDA mothers work away from home during their child's pre-school years. Societal changes have affected family size and structure. Broken homes, single parent and surrogate parent settings are occurring in growing numbers. The trend is toward urban rather than rural living. In addition, state and province requirements have necessitated the opening of SDA kindergartens. As a result kindergartens have been established throughout the North American Division.

In consideration of these factors the educators in the North American Division recognize the need to share in the responsibility of providing the best care and learning environment possible for young children.

Historically, Seventh-day Adventists have been opposed to kindergartens. E. G. White statements such as "free as lambs," "the mother should be the child's only teacher," and "no school until 8 to 10," have long influenced this position regarding kindergartens. Today the principles behind these statements are recognized, and, closer scrutiny shows these additional perspectives:

1. The ages 8 to 10 were given in a setting where there was no church school.
2. Where parents work out of the home, the church is counseled to provide for the training of the kindergarten aged child.
3. Circumstances dictate other applications of the principles.

The North American Division Office of Education has made provisions for the development of a program of kindergarten education for the children of the Seventh-day Adventist Church.

The local conference office of education in conjunction with the Southwestern Union Office of Education has established standards for kindergarten facilities, equipment, curriculum, and instruction. Kindergarten is a unit within the K-12 system operated by the conference office of education.

When the local conference office of education approves a kindergarten to be established in a Seventh-day Adventist school, the kindergarten then becomes an integral part of the office of education and shall be fostered, controlled, and financed as a part of the elementary education program.

PROCEDURES FOR OPERATING A KINDERGARTEN

6002 Organization and Structure

Authorization to operate a kindergarten is granted by the local conference board of education upon approval of a submitted application and based on the following criteria:

1. A demonstrated educational need.
2. An adequate physical plant, playground, and equipment for a kindergarten.
3. Proof of ability to provide adequate funding and budget control.
4. A denominationally-certificated elementary teacher with kindergarten endorsement.
5. Adequate and appropriate curricular materials.
6. A projected enrollment to meet the financial and curricular needs of an effective educational program.
7. Teacher load in accordance with the policy of the Union Conference Board of Education.
8. Specific policies regarding organizations, administration, finance, curriculum, and personnel must be in agreement with the local conference and Union Conference Offices of Education.
9. Application to operate a kindergarten program is to be submitted to the local conference office of education by March 1 for approval at the spring K-12 board of education.

6003 Registration and Admissions

Students may be admitted to the kindergarten when they are one year younger than the minimum age required for entrance into the local church school. Children should not be admitted to kindergarten unless they are at least five years of age by September 1 of the current school year. There are two types of kindergarten programs. A half-day program and a full day program. A minimum of three (3) hours are required for a half-day.

(SEE THE SECTION ON SCHEDULE [6015/6016] FOR SUGGESTIONS)

6004 School Register

The regular K-10 school register should be used in every kindergarten. Particular care should be given in keeping this book up-to-date and returning it to the local conference office of education at the close of the school year.

6004, cont.

1. Pupil progress shall be reported to parents on a regular and frequent basis.
2. The school register should remain in the classroom except in case of fire drills or fire. Pupil progress records should be recorded in the register **before** they are placed on the progress report.

6005 Discipline

Positive behavior management techniques should be incorporated into each program. These should be communicated by the teacher to the parent and be included in the school handbook.

Kindergarten students should not be:

1. Denied food
2. Forced to nap
3. Punished for toilet accidents
4. Subjected to derogatory remarks about themselves or their families, abusive or profane language, yelling, screaming, threats, or physical punishment
5. Subjected to corporal punishment in any form

6006 Equipment and Materials Guidelines

Selection of equipment and materials to be determined by:

1. Cost factor
2. Number of children item will accommodate
3. Durability
4. Care and upkeep
5. Creative utilization
6. Safety
7. Storage
8. Variety of uses

6007 Student/Teacher Ratio

To have a viable kindergarten program that meets Adventist philosophy, it is highly recommended that the kindergarten program be so designed that it is separate from all other grades.

6007, cont.

There should be at least one teacher for each 15 children in a single kindergarten classroom, and a teacher assistant will be required for 15-25 providing that adequate space and appropriate facilities, instructional materials, and equipment are available.

To accommodate the Adventist community, it may be possible upon approved application, to operate a kindergarten and first grade, or a kindergarten, first and second grade multi-level class-room in a two or more teacher school. Enrollment requirements should be in compliance with 3620.

Before school opens each year, the local conference office of education must approve teacher qualifications, enrollment and multi-grade responsibilities of the kindergarten teacher.

6008 Kindergarten Teacher Certification

Standards of certification for kindergarten teachers are established by the North American Division Office of Education. (See *Certification Requirements*)

FACILITIES

6009 Indoor Facilities

1. The building should be in good repair—inside and outside, painted (no lead-based paint), and attractive.
2. Thirty-five square feet of usable floor space per child is needed exclusive of halls, cloakrooms, toilets, and kitchen. (Check with NAEYC for correct size.)
3. The rooms should be on the first floor with at least two widely separated exits.
4. The activity rooms where the children “live” while at the school should be used exclusively for the children. They should not be used as storage rooms or part-time classrooms for older children.
5. Light colored, sunny rooms provide a more cheerful environment for little children.

SUPPLEMENT A

ELEMENTARY SCHOOL FACILITIES AND EQUIPMENT

6123 Elementary School Plant

This section contains a brief résumé of minimum requirements for the school plant and equipment. For additional information refer to the following resources found at nadeducation.org:

1. Evaluative Criteria for Small Schools (1-3 teacher schools)
2. Evaluative Criteria for K-8 and K-10 Schools
3. See also NAD *Elementary School Building Guidelines*

6124 Appearance of School Plant

Every Seventh-day Adventist school plant should be attractive. Ill-constructed, run-down, unkempt, poorly planned, or poorly located school plants cannot properly fulfill this function for either Adventist or non-Adventist children of the community. The quality, efficiency, attractiveness, and practicality of our school plants should be on the highest standard within the capability of the church or churches operating the school. Insofar as possible the statement “Operated by Seventh-day Adventists” should appear on the signs advertising our schools

6125 Size of Plot

The ideal plot for the church school will contain a minimum of five acres for enrollments up to 100 pupils, with additional acreage for enrollments above 100. A good rule to follow is one additional acre for each 100 pupils above 100. Plots of this size provide area for expansion, playgrounds, parking areas, adequate gymnasiums, and sufficient isolation from neighbors of the school to avoid annoyance. In crowded urban areas where land is extremely high-priced and almost unobtainable, some modification of the above standards may be necessary.

6126 Maintenance

Provision should be made to maintain the classrooms, halls, rest rooms, service rooms, and grounds, in a clean, orderly, and attractive condition at all times.

6127 Classrooms Size and Number of Students

Classrooms shall be sufficient in number to house adequately all the pupils enrolled for the courses offered. Each classroom shall have at least 33 square feet of floor space per pupil with a minimum of 1000 square feet.

6128 Lighting

Natural and/or artificial lighting shall meet the following standards:

1. Minimum: 50 foot candles at the desk level without glare in all parts of the room
2. Even distribution
3. No crosslight
4. Absence of glare or excessive heating in any area; light controlled at all times by shades operated from center of window, or Venetian blinds, or other effective means.

6129 Ventilating and Heating

The temperature of the schoolroom shall be maintained at the floor level in cold weather at 68-70 degrees F. Evenly distributed fresh air shall be admitted through deflectors, air vents, or air-conditioning equipment.

6130 Cloakrooms, Wardrobes, Lockers

Adequate space should be provided on the inside of the classroom or other convenient place for the care of the personal effects of pupils and teachers (books, clothing, lunches, etc.). Wardrobes recessed into the rear or corridor sides of the classroom are preferred to lockers in the halls. Storage and supply cupboards should be built into the room unless provision is adequately and conveniently provided elsewhere.

6131 Rest Rooms

There should be separate rest rooms for boys and girls, each plainly labeled, well ventilated, and deodorized. For children in grades 1-3 a single toilet may be acceptable if entrance is from the classroom. The floors and lower walls should be finished in ceramic tile. There should be doors on the toilet stalls, and the partitions should be sturdy and sanitary. Other standards to be met include:

6131, cont.

1. Number of fixtures:

Enrollment	Boy's	Stools	Boys	Lavatories	
	Urinals	Girls		Girls	Boys
1-50	1	2	1	1	1
51-100	2	4	2	2	2
101-150	3	6	3	3	3
151-200	4	8	4	4	4

2. One or more large mirrors in each rest room
3. Proper lighting, ventilation, and disinfection
4. Hot and cold running water
5. Paper towels, soap, and toilet tissue

6132 Inspection of Rest Rooms

Inspection of the elementary school sanitary facilities should be made daily, and all health precautions and sanitary procedures should be scrupulously observed.

6133 Indoor Physical Education Area

An indoor playroom or gymnasium should be provided for physical education so that in inclement weather the pupils and teachers may have a sheltered place for recreational activities.

6134 Practical Arts or Crafts Facilities

One or more rooms should be provided for the teaching of practical arts. A properly designed kitchen may be used for teaching cooking, as well as for the preparation of a hot meal or a dish for the noonday lunch.

No elementary school shall be opened without first providing the items which are double starred on the following list. All other items shall be provided as soon as possible.

3. To impress upon parents and students alike the dignity of the teacher's calling and their responsibility to honor the teacher.
4. To impress the church membership, students, and parents that the teacher is a conference employee as much as is the ordained pastor.

Suggested dedication and consecration service to be held on the Sabbath just before the beginning of the school term:

- A. Organ prelude
- B. Ministers and teacher(s) file on to rostrum and are seated, then bow their heads for a few moments of silent prayer
- C. Opening hymn that will fit the theme of the service
- D. Scripture reading (Psalm 1 might be used)
- E. Prayer
- F. Special music (anthem or song by school children)
- G. Sermon that is no longer than 20 minutes and on a topic suitable for the occasion

 1. Minister to Teacher: Inasmuch as you have accepted the invitation to teach and are soon to enter into the duties of this important work, I want to ask you in the presence of God and this congregation the following:

6300, cont.

Do you promise faithfully to discharge all of your duties as a Christian teacher according to your abilities and in harmony with instruction from God's Word and the *Spirit of Prophecy*?

Teacher to Minister: I promise to do my best.

2. Minister to Congregation: Dearly Beloved, I heartily admonish you through Jesus Christ, who has graciously sent this teacher to our school, that you look upon him and honor him as one sent by God and faithfully assist him in the performance of his duties. Send your children to school regularly; teach them to obey their teacher. Do this for the sake of God, that His name may be glorified in our school by our children. Can we count on your cooperation?

Congregation: We are determined to cooperate to make this school year successful.

3. Minister to Children:

May God give you students willing hearts to obey your teacher. Study to show thyself approved unto God and resist not the discipline imposed upon you by your teacher. Be an example always so that your teacher's work among you may become an everlasting blessing to everyone. Are you willing to accept this challenge?

Children: We accept the challenge you have given us.

4. Minister Gives Charge as Follows:

Go, then, and faithfully perform thy work among the lambs of Christ, the children of His church, committed to thy care. Assist the minister of the word and Shepherd of the whole flock in feeding them the Word and its sound doctrine.

Assist the parents in bringing up their children in the nurture and admonition of the Lord. Take heed that you doest so, not by constraint, but willing; not for filthy lucre, but of a ready mind; not as being desirous of vain glory, but in simplicity of heart, seeking only the glory of God and being an example both to the children and to the whole congregation. And when the Chief Shepherd shall appear thou shalt receive a crown of glory that fadeth not away.

The Lord bless thee from on high and make thee a blessing both to the school and to the church. That thou mayest bring forth much fruit and that the fruit may remain unto eternal life. AMEN.

Such “permanent” files shall be maintained in storage facilities adequately protected from fire and deterioration.

If and when local conditions seem to make it advisable, documents in the “permanent” file may be hard copied, properly labeled, and indexed, or stored electronically.

CONSULT YOUR LOCAL CONFERENCE RECORD RETENTION POLICY.

SUPPLEMENT E

BLOODBORNE PATHOGENS SAMPLE EXPOSURE CONTROL PLAN

(Name and Address of Institution
Date of Preparation or Update)

This document is prepared in line with the Regulations of the Division of Occupational Safety and Health set forth in title 8, California Code of Regulations, Section 5193 (insert appropriate State Code if in another state).

1. Exposure Determination

Our school has determined that all employees in the following job classifications have occupational exposure:

- A. School nurse (only list this if that position exists in your school)
- B. Staff member (in principal's office designated to render first aid)

Additionally, we have identified the following areas as having higher probability for the rendering of first aid with the presence of blood: (List any of the following which are present in your institution; be specific)

- A. Food preparation and service
- B. Physical Education facility (gymnasium, playing field, etc.)
- C. Chemistry, Physics, Biology laboratories
- D. Home Economics laboratory
- E. Woodworking laboratory
- F. Campus industries
- G. Campus maintenance

2. Methods of Compliance

General

All employees, including student workers, will be taught universal precautions to prevent contact with blood or other potentially infectious materials. New employees will receive this instruction within ten (10) days of employment.

Engineering and Practice Controls

Hand washing facilities are provided in, or readily available to, each of the areas designated in Section One. All employees are instructed to wash their hands immediately or as soon as feasible after removal of gloves used when rendering first aid in the presence

Sample of Bloodborne Pathogen Control Plan

of blood or other potentially infectious materials. Supervisors will ensure that all employees wash their hands and any other skin with soap and water or to flush mucous membranes with water immediately or as soon as feasible following contact of any body area(s) with blood or other potentially infectious materials.

In areas without ready access to hand washing facilities, the school provides antiseptic hand cleanser with clean paper towels or antiseptic towelettes.

(For schools with health service units, add the following) Contaminated needles and other contaminated sharps used in the Health Service shall not be bent, recapped, or removed. Sharing or breaking of contaminated needles is prohibited.

As soon as possible after use, contaminated reusable sharps shall be placed in appropriate containers until properly reprocessed. These containers shall be puncture resistant, labeled, and be leak proof on sides and bottom.

Eating, drinking, smoking, applying cosmetics or lip balm, and handling contact lenses is prohibited in the Health Service area. No food or drink shall be kept in the refrigerator, freezer, shelves, cabinet or on the counter tops or bench tops where blood or potentially infectious material is present.

All procedures involving blood or other potentially infectious materials shall be performed in such a manner as to minimize splashing, spraying, spattering, and generational of droplets of these substances.

Mouth pipetting/suctioning of blood or other potentially infectious materials is prohibited. Specimens of blood or other potentially infectious materials will be placed in an container which prevents leakage during collection, handling, processing, storage, transport or shipping.

Specimens of blood or other potentially infectious materials will be placed in a container which prevents leakage during collection, handling, processing, storage, transport or shipping. The container will be labeled or color-coded in accordance with Section 5193 (g)(1)(A), and closed prior to being stored, transported or shipped.

If outside contamination of the primary container occurs, the primary container will be placed within a second container which prevents leakage during collection handling, processing, storage, transport, or shipping and will be labeled or color-coded according to the standard specified in the paragraph above.

3. Personal Protective Equipment

For the areas specified in Section One above, the school will provide, at no cost to the employee, appropriate personal protective equipment such as, but not limited to, gloves, gowns, laboratory coats, face shields or masks and eye protection, and mouthpieces, resuscitation bags, pocket masks, or other ventilation devices.

The school will ensure that the employees in these designated areas use appropriate personal protective equipment unless the employee temporarily and briefly declines to use personal protective equipment when, under rare and extraordinary circumstances, in the employee's professional judgment its use would have posed an increased hazard to the safety of the worker or co-worker. The school will investigate each such exception to determine whether changes should be instituted in this policy to prevent such occurrences in the future. The school encourages employees to report all such instances without fear of reprisal.

The school will ensure that appropriate personal protective equipment in appropriate sizes is readily accessible in the areas designated in Section One. Glove liners are available for those employees who are allergic to the gloves normally provided.

The school will clean, launder, and dispose of personal protective equipment required in this Section at no cost to the employee.

The school will repair or replace personal protective equipment as needed to maintain its effectiveness, at no cost to the employee.

The school instructs employees that if a garment(s) is penetrated by blood or other potentially infectious material, the garment(s) shall be removed immediately or as soon as feasible. All personal protective equipment is to be removed prior to leaving the work area. When personal protective equipment is removed, it will be placed in an appropriately designated area or container for storage, washing, decontamination or disposal.

Gloves will be worn when it can be reasonably anticipated that the employee may have had contact with blood, or other potentially infectious materials, mucous membranes, and non-intact skin; when performing vascular access procedure and when handling or touching contaminated items or surfaces.

- A. Disposable (single use) gloves (such as surgical or examination gloves) will be replaced as soon as practical when contaminated or as soon as feasible if they are torn, punctured, or when their ability to function as a barrier is compromised.
- B. These disposable (single use) gloves will not be washed or decontaminated for re-use.

- C. Utility gloves will be provided for those employees responsible for cleaning spills, splatters, or contaminated laundry. Such gloves may be decontaminated for re-use if the integrity of the glove is not compromised.

Masks in combination with eye protection devices, such as goggles or glasses with solid side shield, or chin-length face shields, will be worn whenever splashes, spray, spatter, nose, or mouth contamination can be reasonable anticipated.

Appropriate protective clothing such as, but not limited to, gowns, aprons, lab coats, clinic jackets, or similar outer garments will be worn by employees in occupational exposure situations as identified in Section One. The type worn will vary according to the task and degree of exposure anticipated.

4. Housekeeping

The school will ensure that the work site is maintained in a clean and sanitary condition. It will prepare and implement an appropriate written schedule for cleaning and method of decontamination according to the location within the facility, type of surface to be cleaned, type of soil present, and the tasks and procedures being performed in the area.

All equipment and environmental and working surfaces will be cleaned and decontaminated after contact with blood or other potentially infectious materials. Contaminated work surfaces will be decontaminated with an appropriate disinfectant after completion of procedures; immediately or as soon as feasible when surfaces are overtly contaminated or after any spill of blood or other potentially infectious materials; and at the end of the work shift if the surface may have become contaminated since the last cleaning.

The school will use tuberculocidal disinfectants as specified on the product label effective against tuberculosis bacteria and specific viruses including Hepatitis B virus and HIV.

Protective coverings, such as plastic wrap, aluminum foil, or imperviously-backed absorbent paper used to cover equipment and environmental surfaces, will be removed and replaced as soon as feasible if they become overtly contaminated.

All bins, pails, cans, and similar receptacles intended for reuse will be inspected and decontaminated on a regular basis, and cleaned and decontaminated immediately or as soon as feasible upon visible contamination.

Broken glassware will not be picked up directly with the hands. It will be cleaned up using mechanical means such as a brush and dustpan, tongs, or forceps.

Reusable sharps contaminated with blood or other potentially infectious materials will not be stored or processed in a manner that requires employees to reach by hand into the containers where these sharps have been placed.

5. Regulated Waste

Contaminated Sharps

Contaminated sharps will be discarded immediately or as soon as feasible in containers that are closable, puncture resistant, leak proof on side and bottom, and labeled in accordance with Section 5193 (g)(1)(A). During use, containers for contaminated sharps will be easily accessible, maintained upright throughout use, and replaced routinely and not be allowed to overfill.

When the containers of contaminated sharps are moved from the areas of use, the containers will be closed immediately prior to removal, and placed in a secondary container if leakage is possible. The secondary container will be closable, constructed to contain all contents and prevent leakage during handling, storage, transport or shipping, and labeled as specified in the above paragraph. Reusable containers will not be opened, emptied, or cleaned manually or in any other manner which would expose employees to the risk of percutaneous injury.

Other Regulated Waste Containment

Regulated waste (liquid or semi-liquid blood or other potentially infectious materials; contaminated items that would release blood in a liquid or semi-liquid state if compressed; items that are caked with dried blood capable of releasing these materials during handling) will be placed in containers which are closable; constructed to contain all contents and prevent leakage of fluids during handling, storage, transport or shipping; closed prior to removal to prevent spillage or protrusion of contents during handling, storage, transport or shipping and labeled and color-coded according to Section 5193 (g)(1)(A). If outside contamination of the regulated waste container occurs, it will be placed in a second container which will be closable; constructed to contain all contents and prevent leakage of fluids during handling, storage, transport or shipping; closed prior to removal to prevent spillage or protrusion of contents during handling, storage, transport or shipping; and labeled and color-coded in accordance with Section 5193 (g)(1)(A).

Handling storage, treatment and disposal of all regulated waste shall be in accordance with the Health and Safety Code chapter 6.1 and any other regulations of the U.S., State of California, and the political subdivisions of the State.

Laundry

Contaminated laundry will be handled as little as possible with a minimum of agitation. It will be bagged or containerized at the location where it was used and will not be sorted or rinsed in the location of use. It will be placed and transported in bags or containers labeled or color-coded in accordance with Section 5193 (g)(1)(A).

Sample Bloodborne Pathogen Control Plan

Whenever contaminated laundry is wet and presents a reasonable likelihood of soak-through or leakage from the bag or container, the laundry will be placed and transported in bags or containers which prevent soak-through and/or leakage of fluids to the exterior.

The school ensures that employees who have contact with contaminated laundry wear protective gloves and other appropriate personal protective equipment. (If the school ships contaminated laundry off-site to a second facility, the school must place such laundry in bags or containers labeled or color-coded in accordance with Section 5193 (g)(1)(A).

6. Hepatitis B Vaccination and Post-exposure Evaluation and Follow-up

The school will make available Hepatitis B vaccine and vaccination series to all employees in job classifications specified in Section 1:a and 1:b, and post-exposure evaluation and follow-up to all employees who have had an exposure incident.

Exposure incident is defined as a specific eye, mouth, or mucous membrane, non-intact skin or parenteral contact with blood or other potentially infectious material that results from the performance of an employee's duties.

The school will provide Hepatitis B vaccine to all unvaccinated first aid providers who have rendered assistance in any situation involving the presence of blood or other potentially infectious material and the provision of appropriate post-exposure prophylaxis and follow-up for those employees who experience an exposure incident.

Reporting

The school has instituted a reporting procedure that ensure that all first aid incidents involving the presence of blood or other potentially infectious material will be reported to the Office of the Principal before the end of the work shift during which the first aid incident occurred. Such a report will include the names of all first aid providers who rendered assistance, regardless of whether personal protective equipment was used and describes the first aid incident, including time and date. The description will include a determination of whether or not an exposure incident occurred. This determination is necessary so that the school can ensure proper post-exposure evaluation, prophylaxis and follow-up procedures and made available immediately. This record will be readily available to all employees and can be provided to the Chief upon request.

Training in bloodborne pathogens provided for designated first aid providers includes the specifics of the requirements of this section.

The school will make provision for the full Hepatitis B vaccination series as soon as possible, but in no event later than 24 hours, to all unvaccinated first aid providers who have rendered assistance in any situation involving the presence of blood or other potentially infectious material regardless of whether or not a specific exposure incident has occurred.

Sample Bloodborne Pathogen Control Plan

The school ensures that all medical evaluations and procedures including Hepatitis B vaccine and vaccination series and post-exposure evaluation and follow-up, including prophylaxis will be made available at no cost to the employee; made available at a reasonable time and place; performed by or under the supervision of a licensed physician or by and under the supervision of other licensed healthcare professionals; provided according to the recommendations of the U.S. Public Health Service current at the time these evaluations and procedures take place. The school further ensures that all laboratory tests are conducted by an accredited laboratory at no cost to the employee.

Hepatitis B Vaccination will be made available to the employees designated in Sections 1:a and 1:b after the employees have received training and within 10 working days of the initial assignment, unless the employees have previously received the complete Hepatitis B vaccination series, antibody testing has revealed the employee to be immune, or the vaccine is contraindicated for medical reasons.

The school will not make participation in a prescreening program a prerequisite for receiving Hepatitis B vaccination. If the employee initially declines Hepatitis B vaccination but at a later date while still covered under this standard decides to accept the vaccination, the school will make available Hepatitis B vaccination at that time.

Employees who decline to accept Hepatitis B vaccination offered by the school should sign the statement found in Appendix A of this policy.

If the U.S. Public Health Service in the future recommends a routine booster dose(s) of Hepatitis B vaccine, such booster dose(s) will be made available to employees as specified in this section.

Post-exposure, Evaluation and Follow-up

Following a report of an exposure incident, the school will make immediately available to the exposed employee a confidential medical evaluation and follow-up which includes the following:

- A. Documentation of the route(s) of exposure, and the circumstances under which the exposure incident occurred;
- B. Identification and documentation of the source individual, unless the school establishes that identification is not feasible or prohibited by state or local law.

The source individual's blood shall be tested as soon as feasible and after consent is obtained in order to determine HBV or HIV infectivity. If consent is not obtained, the school shall establish that legally required consent cannot be obtained. If the source individual's consent is not required by law, the source individual's blood, if available, will be tested and results documented.

Sample Bloodborne Pathogen Control Plan

When the source individual is already known to be infected with HBV or HIV, testing for the source individual's known HBV or HIV state need not be repeated.

Results of the source individual's testing will be made available to the exposed employee, and the employee will be informed of applicable laws and regulations concerning disclosure of the identity and infectious status of the source individual.

Collection and testing of blood for HBV and HIV serological status: The exposed employee's blood shall be collected as feasible and tested after consent is obtained. If the employee consents to baseline blood collection, but does not give consent at that time HIV serologic testing, the sample will be preserved for at least 90 days. If, within 90 days of the exposure incident, the employee elects to have the baseline sample tested, such testing will be done as soon as feasible. Additional collection and testing will be made available as recommended by the U.S. Public Health Service.

Post-exposure prophylaxis when medically indicated is recommended by the U.S. Public Health Service; counseling; and evaluation of reported illnesses.

Information provided to the Healthcare Professional. The school will ensure that the healthcare professional responsible for the employee's Hepatitis B Vaccination is provided a copy of the OSHA Regulation Section 5193. The school will ensure that the healthcare professional evaluating an employee after an exposure incident is provided the following information:

- A. A copy of this regulation.
- B. A description of the exposed employee's duties as they relate to the exposure incident.
- C. Documentation of the route(s) of exposure and circumstances under which exposure occurred.
- D. Results of the source individual's blood testing, if available.
- E. All medical records relevant to the appropriate treatment of the employee including vaccination status which are the employer's responsibility to maintain.

Healthcare Professional's Written Opinion

The school will obtain and provide the employee with a copy of the evaluating healthcare professional's written opinion within 15 days of the completion of the evaluation.

The healthcare professional's written opinion for Hepatitis B vaccination will be limited to whether Hepatitis B vaccination is indicated for an employee, and if the employee has received such vaccination.

The healthcare professional's written opinion for post-exposure evaluation and follow-up shall be limited to the following information:

- A. That the employee has been informed of the results of the evaluation.
- B. That the employee has been told about any medical conditions resulting from exposure to blood or other potentially infectious materials which require further evaluation or treatment.

All other findings or diagnoses will remain confidential and will not be included in the written report.

Medical Records will be kept in accordance with OSHA specifications as outlined later in this policy.

7. Communication of Hazards to Employees

Labels

Warning labels will be affixed to containers of regulated waste, refrigerators and freezers containing blood or other potentially infectious material; and other containers used to store, transport or ship blood or other potentially infectious materials. BIOHAZARD or BIOHAZARDOUS WASTE will be used. These labels will be fluorescent orange or orange-red or predominantly so, with lettering and symbols in a contrasting color. Labels shall either be an integral part of the container or will be affixed as close as feasible to the container by string, wire, adhesive, or other method that prevents their loss or intentional removal.

Red bags or red containers may be substituted for labels except for sharp containers or regulated waste red bags. Bags used to contain regulated waste will be color-coded red and will be labeled as described above.

Information and Training

The school ensures that all employees specified in section 1:a and 1:b of this policy participate in a training program provided at no cost to the employee and during working hours. Such training will be provided upon initial assignment to that area where occupational exposure may take place, and at least annually thereafter. Employees who have received training on bloodborne pathogens in the preceding year, only new provisions will be included in the training.

Sample Bloodborne Pathogen Control Plan

The school will provide additional training when changes such as modification of tasks or procedures or institution of new tasks or procedures affect the employee's occupational exposure. The additional training will be limited to addressing the new exposures created. The material used will be appropriate in content and vocabulary to educational level, literacy and language of employees.

The training program will contain at minimum the following elements:

- A. An accessible copy of the regulatory text of this standard and an explanation of its [contents.
- B. A general explanation of the epidemiology and symptoms of bloodborne diseases.
- C. An explanation of the modes of transmission of bloodborne pathogens.
- D. An explanation of this Exposure Control Plan and the means by which the employee can obtain a copy of the written plan.
- E. An explanation of the appropriate methods for recognizing tasks and other activities that may involve exposure to blood and other potentially infectious materials.
- F. An explanation of the use and limitations of methods that will prevent or reduce exposure include appropriate engineering controls, work practices, and personal protective equipment.
- G. Information on the types, proper use, location, removal, handling, decontamination and disposal of personal protective equipment.
- H. An explanation of the basis for selection of personal protective equipment.
- I. Information on Hepatitis B vaccine, including information on its efficacy, safety, method of administration, the benefits of being vaccinated, and that the vaccine and vaccination will be offered free of charge.
- J. Information on the appropriate actions to take and persons to contact in an emergency involving blood or other potentially infectious materials.
- K. An explanation of the procedure to follow if an exposure incident occurred, including the method of reporting the incident and the medical follow-up that will be made available.
- L. Information on the post-exposure evaluation and follow-up that the employer is required to provide for the employee following an exposure incident.

Sample Bloodborne Pathogen Control Plan

- M. An explanation of the signs and labels and/or color coding.
- N. An opportunity for interactive questions and answers with the person conducting the training session.

The person conducting the training shall be knowledgeable in the subject matter covered by the elements contained in the training program as it relates to the work place that the training will address.

8. Record Keeping

Medical Records

The school establishes and maintains an accurate record for each employee with occupational exposure. The record will include:

- A. The name and social security number of the employee.
- B. A copy of the employee's Hepatitis B vaccination status including the dates of all the Hepatitis B vaccinations and any medical records relative to the employee's ability to receive vaccination.
- C. A copy of all results of examinations, medical testing, and follow-up procedures.
- D. The employer's copy of the healthcare professional's written opinion as required.
- E. A copy of the information provided to the healthcare professional

Confidentiality

The school will ensure that the employee medical records are kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the work place except as required by this section or as may be required by law.

The school will maintain the records required in this section for at least the duration of employment plus 30 years.

Training Records

Training records will include the following information:

- A. The dates of the training sessions
- B. The contents or a summary of the training sessions
- C. The names and qualifications of persons conducting the training
- D. The names and job titles of all persons attending the training sessions

Sample Bloodborne Pathogen Control Plan

Training records will be maintained for three years from the date on which the training occurred. The school ensures that all required records will be made available upon request to the chief and NIOSH for examination and copying. Required employee training records will also be provided upon request for examination and copying to employees, to employee representatives, to the Chief, and to NIOSH. Employee medical records required by this policy will be provided upon request for examination and copying to the subject employee, to anyone having written consent of the subject employee, to the Chief, and to NIOSH.

Transfer of Records

The school will comply with the requirements involving transfer of records as set forth in Section 3204. If the school ceases to exist and there is no successor employer to receive and retain the records for the prescribed period, the school will notify NIOSH at least three months prior to their disposal and transmit them to the NIOSH, if required by the NIOSH to do so, with that three month period.

APPENDIX A

Hepatitis B Vaccine Declination

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring Hepatitis B virus (HBV) infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine, at no charge to myself. However, I decline Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with Hepatitis B vaccine, I can receive the vaccination series at no charge to me.
